Admin-Web Functional QA

Lead → Trip Closure · Preprod · run `admin-web-20261113-1016-FUNC` · test PNR SOQS555799 · 13 Nov 2026

1. Overall execution summary

Use cases	Pass	Fail	Blocked	Not Run
94	57	30	1	6

Confirmed defects	Observations	Clarifications
22	14	7

Final workflow status: TP-112 Trip Closed: Yes (Completed Trips). **Last successfully completed stage:** Close Trip (Trip Closed Yes) – every stage from Lead to Close Trip was executed on the single test record; closure happened via an invalid close-sheet submission the app accepted (ISS-43).

Requested vs allocated vehicle: requested 16 Seater Premium Urbania (Passenger Van, 16 seats) x1; allocated AR 01 U 8228 (16 Seater Premium Urbania) - matches request. No substitution.

Severity of confirmed defects: Critical 1 · High 5 · Medium 12 · Low 4. Highest impact: quote total never recalculates (ISS-06), pax accepts blank/0/over-capacity (ISS-05), pickup time lost and not editable before the Live stage (ISS-01/ISS-07), Aadhaar exposed (ISS-35), negative diesel accepted at closure (ISS-43).

3. Use Cases Tested

Lead Management (10)

ID	TITLE	SCENARIO / OBJECTIVE	PRECONDITIONS	STEPS PERFORMED	EXPECTED	ACTUA
LM-01	Identify test record by PNR, then Lead ID lookup	PNR is the identity source; Lead ID becomes the lookup key	PNR SOQS555799 supplied	1. Search Lead Info = LD-353 (Lead ID known from the 20261112 run) 2. Row menu > View Lead 3. Read Inquiry Information > Inquiry PNR	Exactly one row; PNR equals SOQS555799	One rc Inquiry
LM-02	View Lead details vs User-Web inquiry	Lead data matches what the customer submitted	LM-01	1. Open View Lead for LD-353 2. Compare each field with User-Web TC-07 input	Customer, pax, date, pickup time, location, journey type, vehicle and cost match	Match Whitef Urbani 12:00 A shown Issues: I
LM-03	Search Lead Info variants	Search by full ID, partial ID, name, PNR, no-match	Lead list	1. Search LD-353 2. Search LD-35 3. Search Bikash 4. Search SOQS555799 5. Search zzzz-no-match	Matching rows; clear empty state for no match	LD-353 PNR: 0 availab Issues: I
LM-04	Status filter dropdown and Reset Filter	Filter options and reset	Lead list	1. Open status dropdown 2. Select Open 3. Click Reset Filter	Options listed; only Open rows; reset restores all	Optior entries

LM-05	Date filter and pagination / rows per page	List navigation	Lead list	1. Look for a date filter 2. Rows per page 05 -> 10 3. Open last page	Page size and page count update; last page shows remaining rows	No da Sizes 0 141-14
LM-06	Lead table values vs lead details	List columns reflect the lead	LM-01	1. Search LD-353 2. Compare row with View Lead	Stage and Expected Value populated from the inquiry	Stage is Rs 8, Issues: I
LM-07	+ Add Lead form: fields, dropdowns, mandatory and invalid validation (not saved)	Create-lead form validation without creating a record	Lead list	1. Click + Add Lead 2. Open Stage and Status dropdowns 3. Click Create Lead with all fields blank 4. Enter whitespace-only Client Name and Expected Value -500, click Create Lead 5. Type letters into Expected Value 6. Reload page (discard)	Required-field and range errors; letters rejected; no lead created	Fields: Stage (Prosp Won/C (Active name Whites be 0 o open;
LM-08	View Lead modal behaviour	Close, refresh, re-open	LM-01	1. Open View Lead 2. Press Escape 3. Re-open 4. Browser refresh	Modal closes via a visible control and Escape; refresh returns to list	Escape Inquiry and cl Issues: I
LM-09	Assign lead to employee (dialog + empty-state validation)	Assign dialog content and validation (saving is approval-needed)	LD-353 listed	1. LD-353 menu > Assign 2. Open Assign Employee dropdown 3. Check Assign button state	Employee list available; Assign disabled until an employee is chosen	Dialog only "S remain this en Issues: I
LM-10	Send To Inquiry from the lead	Forward transition to the quote form	LD-353 Open	1. LD-353 menu > Send To Inquiry	Update Inquiry form opens for Inquiry 944	Naviga inquiry Lead li

Inquiry Management (7)

ID	TITLE	SCENARIO / OBJECTIVE	PRECONDITIONS	STEPS PERFORMED	EXPECTED
IM-01	Search, start-date and client filters, Reset Filter	Locate the inquiry by ID/name/date	QRY-944 exists	1. Search QRY-944, Bikash, 944, QRY-9, zzzz 2. Start Date = 20 Nov 3. Client filter "Bikash" 4. Reset Filter	Correct filtering; state for no mat restores
IM-02	KPI cards	Cards reflect inquiry data	Inquiry list	1. Read KPI cards 2. Compare with list	Total matches th conversion/pend value consistent
IM-03	Inquiry row values vs quote	List shows the quote data	QT-10	1. Search QRY-944 2. Compare columns with the quote	Client, type, veh date, status cons
IM-04	View Quote	Quote summary from the list	QT-10	1. Click View Quote in the row 2. Close	Quotation summ correct costing
IM-05	Edit inquiry opens saved values	Edit path and persistence	QT-10	1. QRY-944 menu > Edit 2. Wait for form to load	Update form wit values

IM-06	+ Add inquiry form (inspect only)	Create form structure	Inquiry list	1. Click + Add inquiry 2. Inspect fields and buttons 3. Leave	Create form with fields
IM-07	Status terminology across stages	Status labels	Inquiry list	1. Read status for QRY-944 before/after quote	Clear progressio

Quotation / Update Quote (13)

ID	TITLE	SCENARIO / OBJECTIVE	PRECONDITIONS	STEPS PERFORMED	EXPECTED	A
QT-01	Pre-filled quote values vs User-Web inquiry	Quote form reflects the submitted inquiry	LM-10	1. Read every field and the Vehicle Costs row	Booking type, client, dates, pickup time, pax, trip days, vehicle, package and cost match TC-07	L d x a k A 9 9 Is
QT-02	Mandatory field: Pax blank -> Update Quote	Required-field validation on save	QT-01	1. Clear "Enter Number of Pax's" 2. Click Update Quote 3. Re-open the form 4. Restore pax 1 and save	Save blocked with "Pax is required"	S !' p Is
QT-03	Invalid / boundary input (pax, trip days, fare)	Format and range validation	QT-01	1. Type pax 0, -1, 1.5, 100, abc (inline) 2. Save with pax 0 3. Save with trip days 0 4. Type trip days -2 / 400, base fare -100 (inline, not saved)	Pax must be a whole number 1..vehicle capacity (16); trip days >= 1; fare >= 0	P 1 p t v o b n Is

QT-04	Cost recalculation (additional km/hours, toll, extras, bata days)	Total Approx Cost follows cost inputs	QT-01	1. Change Additional HR's 1, Additional KM 10, Toll 100, Extras 50, Day Bata Days 2 (no save) 2. Save Additional HR's = 1 3. Re-open 4. Restore 0 and save	Total recomputes (e.g. +1 hr x Rs 800 -> Rs 9,100) on screen and after save	T b 1 t Is
QT-05	Fixed Cost / Apply checkbox	Fixed cost override behaviour	QT-01	1. Tick Apply in the Fixed Cost cell 2. Enter 9000 3. Untick	Fixed Cost enabled when Apply ticked; Final Quote uses the fixed cost (rule to confirm)	F ti 8 d Is
QT-06	GST Change dialog	GST edit control	QT-01	1. Click Change next to GST Value 2. Close without saving	Dialog to edit GST with Save/Cancel	D V E
QT-07	Dropdown options (Booking Type, Month, Client, Trip Description)	Option lists	QT-01	1. Open each dropdown	Relevant options	B L M s fr
QT-08	Date/Day-wise Category Assignment calendar	Calendar controls	QT-01	1. Inspect calendar	Trip date highlighted; month navigation, Reset Selection, Save Assignment	N P S A a
QT-09	+ Add New Journey (not saved)	Add journey behaviour	QT-01	1. Click + Add New Journey 2. Reload without saving	New journey section with required inputs; discarded on reload	A " a it tr
QT-10	Edit Trip Description + Toll and verify persistence	Edited values persist after save and re-open	QT-01	1. Type Trip Description "QA functional test LD-353" 2. Toll & Parking 100 3. Save 4. Re-open + refresh 5. View Quote in Inquiry list 6. Restore toll 0	Both values persist; total includes toll (or rule documented)	D T c in fo fo Is

QT-11	Preview Quote Summary	Summary content	QT-01	1. Click Preview Quote Summary 2. Close	Summary of legs and costing	"(C P C ((
QT-12	Arrival / Departure time editability	Pickup time can be corrected	QT-01	1. Inspect Select Arrival/Departure Time	Admin can correct the pickup time (9:00 AM)	B w Is
QT-13	Leave form with unsaved changes	Data-loss protection	QT-01	1. Type in Trip Description 2. Browser Back 3. Re-open	Unsaved-changes warning (or documented as not required)	N In Is

Pre-Bookings (8)

ID	TITLE	SCENARIO / OBJECTIVE	PRECONDITIONS	STEPS PERFORMED	EXPECTED
PB-01	Choose Trip(s): no leg selected	Convert requires a selected quote leg	QRY-944 with quote 1701	1. QRY-944 menu > Send To Booking 2. Untick Leg 1	Convert into Booking disabled or validation shown
PB-02	Convert confirmation: No, then Yes	Confirmation dialog behaviour and transition	PB-01	1. Tick Leg 1 > Convert into Booking 2. Click No 3. Repeat and click Yes	No keeps th inquiry; Yes creates the booking
PB-03	Pre-Bookings search and filters	Locate booking; filter by client, vehicle, date range; reset	B-944 in Pre-Bookings	1. Search B-944 2. Client filter Bikash 3. Open vehicle filter 4. Open date range 5. Reset Filter	Correct results; options liste reset restore

PB-04	View Booking details	Booking details vs quote	PB-03	1. B-944 menu > View Booking	Status Pre-Booking; vehicle, locations, costing, tax consistent with quote
PB-05	Edit Booking and persistence	Edit a field and verify after re-open	PB-03	1. B-944 menu > Edit Booking 2. Advance prompt: No, Not Now 3. Change Trip Description to "QA functional test LD-353 booking edit" 4. Update Booking 5. Re-open	Edit form opens direct value persist
PB-06	Confirm Booking form values and confirm	Values carried into confirmation; transition	PB-05	1. B-944 menu > Confirm Booking 2. Compare form with quote 3. Click Confirm Booking	Same values as quote; booking confirmed
PB-07	KPI cards after confirmation	Cards update with the transition	PB-06	1. Read cards before/after confirming	Counts mov consistently and labels match what they count
PB-08	+ Add New Booking form (inspect only)	Create form structure	Pre-Bookings	1. Click + Add New Booking 2. Inspect 3. Leave	Create form

Booked (3)

ID	TITLE	SCENARIO / OBJECTIVE	PRECONDITIONS	STEPS PERFORMED	EXPECTED	A

BK-01	Booked tab listing and menu	Confirmed booking visible with correct values	PB-06	1. Open Booked tab 2. Locate B-944 3. Open row menu	B-944 listed with same values; booking search available	
BK-02	Back to Pre-Bookings and re-confirm	Reverse transition and recovery	BK-01	1. B-944 menu > Back to Pre-Bookings 2. Move Back 3. Check Pre-Bookings 4. Confirm Booking again 5. Check Booked	Booking returns to Pre-Bookings with data intact; can be re-confirmed	
BK-03	Completed tab (read-only)	Completed bookings table	Booked tab	1. Open Completed tab 2. Read columns and rows	Completed bookings with Booking IDs	

Upcoming Trip / Trip Approval (5)

ID	TITLE	SCENARIO / OBJECTIVE	PRECONDITIONS	STEPS PERFORMED	EXPECTED
UT-01	Booking listed in Upcoming Trips	Confirmed booking appears with its data	B-944 Booked	1. Login to Admin Preprod 2. Booking & Operations > Upcoming Trips card (/booking-management/upcoming-trips) 3. Locate row Bikash N, Local, 20 Nov 2026 12:00 AM (Trip ID blank before approval)	Row with Booking/ reference correct ti

UT-02	Client filter, date range, Reset	Filters on Upcoming Trips	UT-01	1. Open Select Client Name 2. Reset Filter	Client list; filtering; r
UT-03	Edit Booking from Upcoming Trips	Edit path at this stage	UT-01	1. Login to Admin Preprod 2. Booking & Operations > Upcoming Trips card (/booking-management/upcoming-trips) 3. Locate row Bikash N, Local, 20 Nov 2026 12:00 AM (Trip ID blank before approval) 4. Row menu > Edit Booking 5. Advance prompt > No, Not Now	Update B form ope from Pre-Bookings)
UT-04	Vehicle Allocation before approval	Guard against allocating unapproved trips	UT-01	1. Login to Admin Preprod 2. Booking & Operations > Upcoming Trips card (/booking-management/upcoming-trips) 3. Locate row Bikash N, Local, 20 Nov 2026 12:00 AM (Trip ID blank before approval) 4. Row menu > Vehicle Allocation	Allocation blocked u approval
UT-05	Send To Trip Approval: No, then Yes	Confirmation behaviour and transition	UT-01	1. Login to Admin Preprod 2. Booking & Operations > Upcoming Trips card (/booking-management/upcoming-trips) 3. Locate row Bikash N, Local, 20 Nov 2026 12:00 AM (Trip ID blank before approval) 4. Row menu > Send To Trip Approval > No 5. Repeat > Yes	No keeps Yes appro and gene Trip ID

Vehicle Allocation Portal (10)

ID	TITLE	SCENARIO / OBJECTIVE	PRECONDITIONS	STEPS PERFORMED	EXPECTED

VA-01	Portal tabs content	Tabs show allocation data	TP-112 approved	1. Open Available Vehicles, Pending Allocation Confirmations, Trip Approvals & Vehicle Assignment	Each tab lis relevant da
VA-02	Portal KPI cards	Cards visible and plausible	Portal open	1. Open Vehicle Allocation Portal 2. Read cards	Counts for buses, approved trips, porta trips, tariffs
VA-03	TP-112 row actions before allocation	Correct CTAs	VA-01	1. Login to Admin Preprod 2. Fleet & Vehicle Management > Fleet & Vehicles > Vehicle Allocation Portal 3. Trip Approvals & Vehicle Assignment, page 2: TP-112	Allocate enabled, Allocate Driver abse
VA-04	Allocation type dialog	Allocation type selection	VA-03	1. Login to Admin Preprod 2. Fleet & Vehicle Management > Fleet & Vehicles > Vehicle Allocation Portal 3. Trip Approvals & Vehicle Assignment, page 2: TP-112 4. Allocate 5. Advance prompt: No, Continue to Allocation	Allocation types offer
VA-05	Allocation page details	Trip and requirement shown	VA-04	1. Continue 2. Read header	Trip numbe required bu type, date, status

VA-06	Requested vehicle availability, Change Bus Type, Vendor List, preferences	Match requested type/capacity	VA-05	1. List tiles of category 16 Seater Premium Urbania 2. Open Change Bus Type (close) 3. Open Vendor List (close) 4. Open Vehicle Preferences	Requested type availa and selectable; supporting dialogs informative
VA-07	Confirm Allocation with no vehicle selected	Validation	VA-05	1. With no tile ticked, check Confirm Allocation	Disabled o validation
VA-08	Selecting more vehicles than requested	Quantity enforcement (request = 1)	VA-05	1. Tick AR 01 U 8228 2. Tick NL 01 B 3364 3. Close dialog with X	Second selection prevented with a clea message
VA-09	Allocate requested vehicle and confirm	Correct vehicle allocated	VA-08	1. Verify ticked tile AR 01 U 8228 / 16 Seater Premium Urbania 2. Confirm Allocation	Allocation success; sta updated
VA-10	Available Vehicles after allocation	Allocated vehicle shown as booked for the date	VA-09	1. Planned: Available Vehicles tab, AR 01 U 8228 status for 20/11/2026	Vehicle unavailable for 20/11/202

Driver Allocation (3)

ID	TITLE	SCENARIO / OBJECTIVE	PRECONDITIONS	STEPS PERFORMED	EXPECTED

DA-01	Allocate Driver available after vehicle allocation	Driver step offered	VA-09	1. Login to Admin Preprod 2. Fleet & Vehicle Management > Fleet & Vehicles > Vehicle Allocation Portal 3. Trip Approvals & Vehicle Assignment, page 2: TP-112	Allocate Driver enabled for TP-112
DA-02	Allocate Driver: validation and submit	Driver assignment	DA-01	1. Click Allocate Driver 2. Check Submit with no driver 3. Open Select Driver 4. Choose Test Driver 5. Submit	Submit blocked until a driver is chosen; assignment saved
DA-03	Edit Driver Details: form and empty validation	Driver replacement	DA-02	1. Menu > Edit Driver Details 2. Advance prompt: No 3. Check Update with no replacement	Shows assigned driver; Update disabled until replacement chosen

Approved & Track Live Trips (6)

ID	TITLE	SCENARIO / OBJECTIVE	PRECONDITIONS	STEPS PERFORMED	EXPECTED
AT-01	Approved Vehicles filters and Trip ID search	Locate trips	TP-112 approved	1. Search Trip ID TP-112 2. Search TP-999 3. Open Vendor and Vehicle dropdowns	Correct filtering and options
AT-02	Approved trip row values vs allocation	Row reflects vehicle/driver	DA-02	1. Locate TP-112 2. Compare with allocation	Vehicle, type, capacity, route, date, driver match

AT-03	Edit Allocation	Change allocation path	AT-02	1. Click Edit Allocation	Allocation editor for TP-112
AT-04	Edit Bus Details	Bus details edit form	AT-02	1. Menu > Edit Bus Details 2. Advance prompt: No, Not Now	Bus details form
AT-05	Add Extra Amenities: form and empty validation	Amenity add	AT-02	1. Menu > Add Extra Amenities 2. Advance prompt: No 3. Click Add with nothing selected	Validation
AT-06	Refuel Request: form and blank validation (not sent)	Refuel validation	AT-02	1. Menu > Refuel Request 2. Advance prompt: No 3. Send Request blank	Required-field errors

Vehicle Dispatch (6)

ID	TITLE	SCENARIO / OBJECTIVE	PRECONDITIONS	STEPS PERFORMED	EXPECTED
VD-01	Predeparture Checklist: Next without safety confirmation / note	Checklist enforcement	TP-112 approved with driver	1. Login to Admin Preprod 2. Fleet & Vehicles > Approved & Track Live Trips > Approved Vehicles 3. TP-112 menu > Initiate Vehicle Dispatch 4. Advance prompt: No, Not Now 5. Leave Safety equipment confirmation unticked and Add Note empty 6. Click Next	Either bloc message, c optional (a at submit)
VD-02	Trip Sheet blank submit	Required-field validation	VD-01	1. On Trip Sheet leave all fields empty 2. Click Generate Trip Sheet & Mark Vehicle Ready	Per-field re messages

VD-03	Trip Sheet invalid / boundary values	Range and consistency validation	VD-01	1. Start Odometer -50 2. Start Odometer "abc" 3. Fuel Filled 99999 4. Mileage 0 5. Opening Km 100 vs Start Odometer 200, submit	Negative/i values and mismatch
VD-04	Present Diesel auto-calculation	Derived value	VD-01	1. Last Diesel 10 2. Fuel Filled 30	Present Di
VD-05	Permit upload: non-PDF rejected, PDF accepted, Remove	Upload validation	VD-01	1. Attach test-data/qa-not-a-pdf.txt 2. Attach test-data/qa-test-permit.pdf 3. Remove 4. Attach PDF again	Only PDF a remove wo
VD-06	Dispatch with valid test values	Transition to Ready for Trip	VD-05	1. Start Odometer 20000, Opening Km 20000, Fuel 30, Last Diesel 10, Mileage 10, Helper "QA Test Helper", permit PDF 2. Submit (rejected: "Remarks" not allowed to be empty, API 400) 3. Back to Predeparture Checklist: tick safety, Add Note 4. Next > Submit	Trip ready

Ready for Trip (4)

ID	TITLE	SCENARIO / OBJECTIVE	PRECONDITIONS	STEPS PERFORMED	EXPECTED
RT-01	Dispatched trip listed in Ready For Trip	Transition result	VD-06	1. Login 2. Fleet & Vehicles > Approved & Track Live Trips > Ready For Trip 3. Locate TP-112	TP-112 listed with route/date
RT-02	Edit Tripsheet	Edit dispatch values and persist	RT-01	1. Login 2. Fleet & Vehicles > Approved & Track Live Trips > Ready For Trip 3. Locate TP-112 4. Menu > Edit Tripsheet 5. Advance prompt: No, Not Now 6. Open Trip Sheet tab 7. Try to change Mileage	Editable trip sheet (menu says Edit)

RT-03	Ready For Trip menu actions	Action inventory	RT-01	1. Login 2. Fleet & Vehicles > Approved & Track Live Trips > Ready For Trip 3. Locate TP-112 4. Open menu	Stage-appropriate actions
RT-04	Start Trip: dismiss, then confirm	Confirmation and transition	RT-01	1. Login 2. Fleet & Vehicles > Approved & Track Live Trips > Ready For Trip 3. Locate TP-112 4. Menu > Start Trip > advance prompt No, Not Now 5. Close confirmation (X) 6. Repeat > Confirm	Dismiss keeps state; Confirm starts the trip

Menu > View Trip Summary 5. Repeat for TP-111	Booking ID, ve duty type, tim km, cost and t consistent wit trip
CT-03	Close Trip Sheet validation (closing km, total km, diesel)	Reject invalid closing values	CT-01	1. Login 2. Fleet & Vehicles > Approved & Track Live Trips > Completed Trips 3. Locate TP-112 4. Menu > Close Trip > advance prompt No, Not Now 5. Post-arrival Checklist (pre-filled) > Next 6. Closing Km 19990 (< opening 20000), Total Km 10, Present Diesel 20 > submit 7. Closing Km 20040, Total Km 5, Present Diesel -5 > submit	Both submissi rejected (closi opening; nega diesel)
CT-04	Add Expense form	Extra expense entry and validation	Close sheet open	1. Planned after CT-03	Expense types validation
CT-05	Driver Bata recompute on the close sheet	Total bata recalculation	Close sheet open	1. Planned after CT-03	Total Driver Ba Cost recompu

CT-06	Close Trip and post-close state	Trip closure and menu after closing	CT-03	1. Login 2. Fleet & Vehicles > Approved & Track Live Trips > Completed Trips 3. Locate TP-112 4. Read Trip Closed 5. Open menu	Trip Closed Ye Close Trip no offered
CT-07	Actual vs estimated cost after closure	Billing outcome	CT-06	1. Login 2. Fleet & Vehicles > Approved & Track Live Trips > Completed Trips 3. Locate TP-112 4. Compare Estimated and Actual cost 5. View Trip Summary after closing	Actual reflects sheet (40 km v package -> Rs 8,300 + GST)

Cross-module consistency & UI/UX (6)

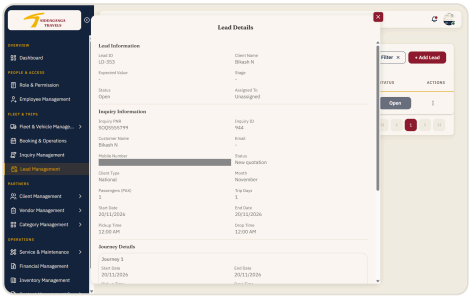

ID	TITLE	SCENARIO / OBJECTIVE	PRECONDITIONS	STEPS PERFORMED	EXPECTED
XC-01	Same values at every stage	Data consistency Lead -> Trip	Full flow	1. Compare customer, client type, pax, date, pickup time, locations, journey, vehicle, cost across Lead, Quote, Booking, Upcoming, Allocation, Approved, Ready, Live, Completed, Summary	Identical values

XC-02	ID chain and where each ID is searchable	Traceability	Full flow	1. Record IDs at each stage and the search that finds them	One reference traceable end to end
XC-03	Notification content	Notifications match the record	Full flow	1. Read notifications at convert, approval, allocation, dispatch	Correct IDs, time and locations
XC-04	Refresh / browser Back on forms and modals	Navigation robustness	Various	1. Refresh with View Lead open 2. Back from Update Inquiry with unsaved change 3. Reload during Add New Journey	No broken state; warning before losing edits
XC-05	Terminology and content across modules	Consistent labels	Full flow	1. Review labels seen during the run	Consistent, correctly spelled labels
XC-06	Advance prompt interruptions	Flow usability	Full flow	1. Count Record Advance prompts encountered	Prompt only where advance is relevant

4. Issues Observed (43)

ISS-01 Pickup and drop time shown as 12:00 AM instead of the time submitted in User-Web

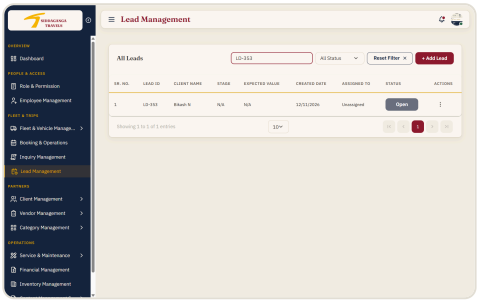

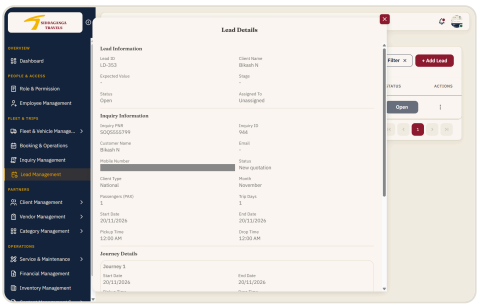

Defect | Data inconsistency | High

1. Issue ID	ISS-01
2. Module and screen	Lead Management · View Lead (also Update Inquiry, bookings, trips)
3. Title	Pickup and drop time shown as 12:00 AM instead of the time submitted in User-Web
4. Environment and record	Admin Preprod (dari-preprod.siddagangatravels.com), Superadmin session PNR SOQS555799 / LD-353 / Inquiry 944 (User-Web TC-07, submitted 9:00 AM)
5. Preconditions	Inquiry submitted from User-Web with pickup time 9:00 AM on 20/11/2026
6. Steps to reproduce	1. Login to Admin Preprod 2. Lead Management > Search Lead Info "LD-353" 3. Row menu > View Lead 4. Read Inquiry Information > Pickup Time / Drop Time and Journey 1 > Pickup Time
7. Expected result	Pickup Time 9:00 AM (as submitted); Drop time derived from the 8/9 hour package
8. Actual result	Pickup Time 12:00 AM, Drop Time 12:00 AM (lead header and Journey 1)
9. Description	The customer-selected pickup time is lost when the inquiry becomes a lead; the same 12:00 AM value then flows to the quote, booking and trip records (also seen for LD-341 / TP-111 in run 20261112). Operations would dispatch at the wrong time.
10. Evidence	
11. Severity / priority	High (priority P1)
12. Classification	Data inconsistency

ISS-02 Lead list shows Stage and Expected Value as N/A for an inquiry lead with a costing

Defect | Data inconsistency | Low

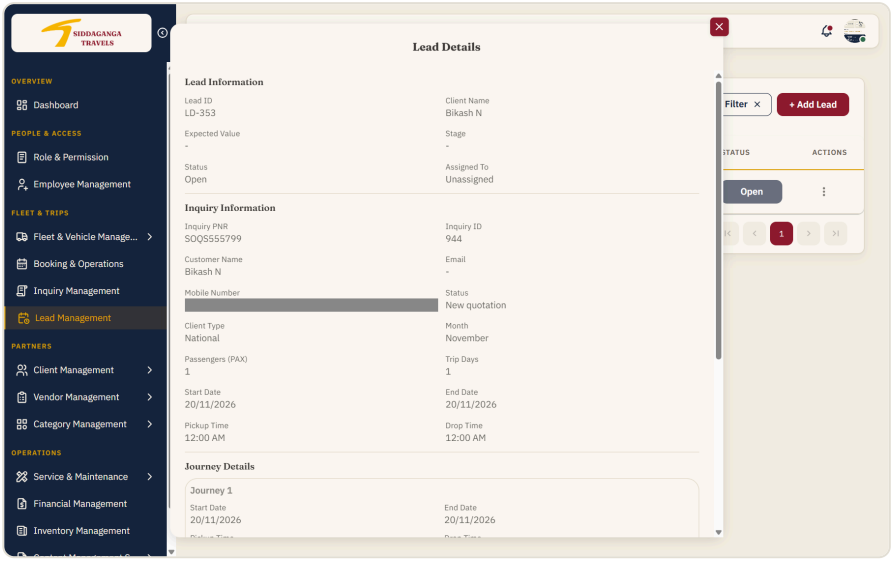

1. Issue ID	ISS-02
2. Module and screen	Lead Management · Lead list (All Leads table)
3. Title	Lead list shows Stage and Expected Value as N/A for an inquiry lead with a costing
4. Environment and record	Admin Preprod (dari-preprod.siddagangatravels.com), Superadmin session LD-353
5. Preconditions	Lead created from a User-Web inquiry
6. Steps to reproduce	1. Login to Admin Preprod 2. Lead Management > Search Lead Info "LD-353" 3. Read STAGE and EXPECTED VALUE columns 4. Open View Lead > Total Costing
7. Expected result	Expected Value reflects the inquiry cost (Rs 8,300) or a stage is set; or the business rule is documented
8. Actual result	STAGE N/A, EXPECTED VALUE N/A while View Lead shows Total Costing Rs 8,300
9. Description	Inquiry-originated leads carry no stage/value in the list, so the pipeline value columns are empty for all such leads (manually created LD-357 shows Prospecting / Rs 5,000). Clarify whether this is intended.
10. Evidence	 
11. Severity / priority	Low (priority P3)

12. Classification	Data inconsistency

Found in: LM-06

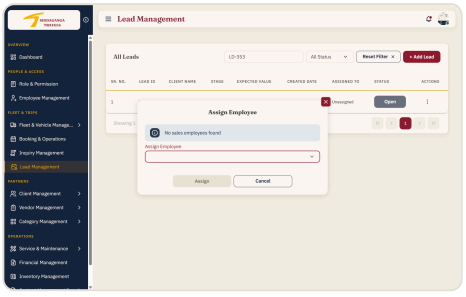

`ISS-03` View Lead modal has no visible Close control

Observation · UX · Low

1. Issue ID	`ISS-03`
2. Module and screen	Lead Management · View Lead modal
3. Title	View Lead modal has no visible Close control
4. Environment and record	Admin Preprod (dari-preprod.siddagangatravels.com), Superadmin session LD-353
5. Preconditions	Lead list
6. Steps to reproduce	1. Login to Admin Preprod 2. Lead Management > Search Lead Info "LD-353" 3. Row menu > View Lead 4. Look for a Close/X button
7. Expected result	A visible Close (X) or Close button
8. Actual result	Only a "Send To Inquiry" button; the modal closes only with Escape or by clicking outside
9. Description	Users without keyboard habits have no obvious way to dismiss the details modal other than the forward action button.
10. Evidence	
11. Severity / priority	Low (priority P3)
12. Classification	UX

ISS-04 Assign lead: "No sales employees found", lead cannot be assigned

Clarification | Functional | Medium

1. Issue ID	ISS-04
2. Module and screen	Lead Management · Assign dialog
3. Title	Assign lead: "No sales employees found", lead cannot be assigned
4. Environment and record	Admin Preprod (dari-preprod.siddagangatravels.com), Superadmin session LD-353
5. Preconditions	Lead list
6. Steps to reproduce	1. Login to Admin Preprod 2. Lead Management > Search Lead Info "LD-353" 3. Row menu > Assign 4. Open Assign Employee dropdown
7. Expected result	List of sales employees to assign
8. Actual result	"No sales employees found"; only placeholder "Select Employee"; Assign disabled
9. Description	Either no employee has the sales role in Preprod (test-data gap) or the employee query fails. Needs clarification; blocks LM-09.
10. Evidence	
11. Severity / priority	Medium (priority P2)
12. Classification	Functional · needs business clarification

ISS-05 Pax accepts blank, 0, negative, decimal, text and values above vehicle capacity; blank/0 are saved

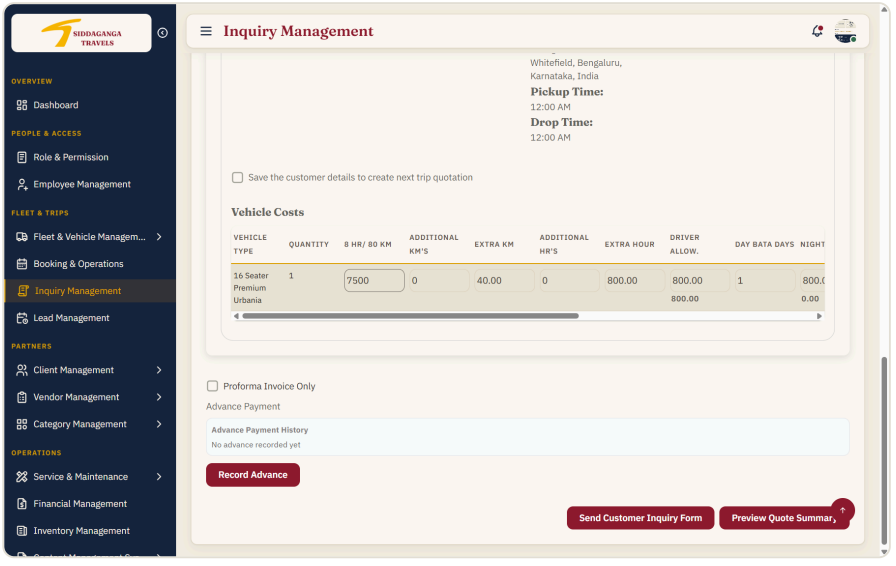

Defect | Validation | High

1. Issue ID	ISS-05
2. Module and screen	Quotation / Update Quote · Update Inquiry > Enter Number of Pax's
3. Title	Pax accepts blank, 0, negative, decimal, text and values above vehicle capacity; blank/0 are saved
4. Environment and record	Admin Preprod (dari-preprod.siddagangatravels.com), Superadmin session LD-353 / Inquiry 944 (QRY-944) / Quote 1701, form /inquiry-management/update-inquiry/dfb79d89-...
5. Preconditions	Inquiry open in Update Inquiry
6. Steps to reproduce	1. Login to Admin Preprod 2. Lead Management > Search Lead Info "LD-353" > menu > Send To Inquiry (opens Update Inquiry) 3. Clear "Enter Number of Pax's" (or type 0 / -1 / 1.5 / 100 / abc) 4. Click Update Quote 5. Re-open the inquiry
7. Expected result	Validation message; pax must be an integer between 1 and the selected vehicle capacity (16); save blocked
8. Actual result	No message for any value; blank and 0 save with "Data updated successfully !" and re-open as an empty Pax field
9. Description	Pax is a plain text input without required/format/range checks, unlike Trip Days (min 1). An inquiry/booking can be confirmed with no passengers or more passengers than seats.

10. Evidence

11. Severity / priority

High (priority P1)

12. Classification

ISS-06 Total Approx Cost (Final Quote) is not recalculated when cost components change, even after saving

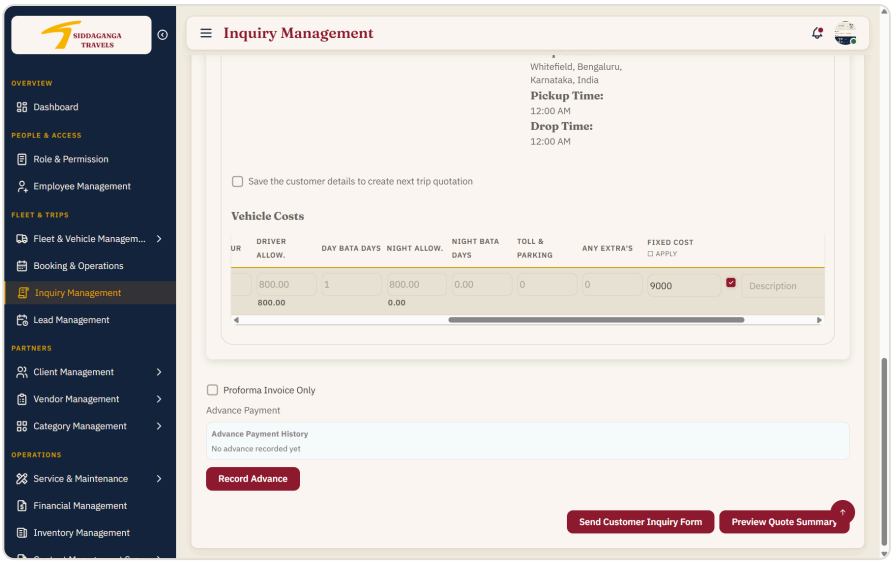

Defect | Functional | Critical

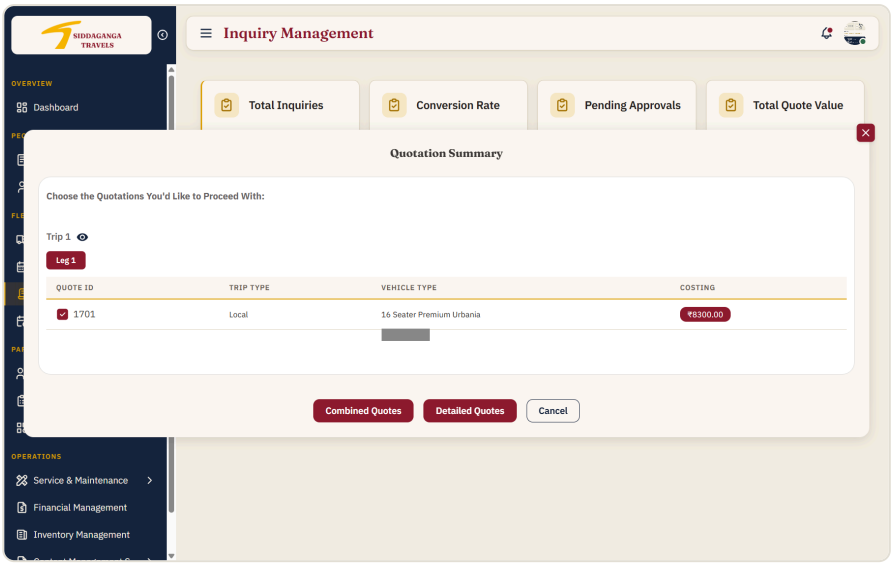

1. Issue ID	ISS-06
2. Module and screen	Quotation / Update Quote · Update Inquiry > Vehicle Costs > Final Quote / Total Approx Cost
3. Title	Total Approx Cost (Final Quote) is not recalculated when cost components change, even after saving
4. Environment and record	Admin Preprod (dari-preprod.siddagangatravels.com), Superadmin session LD-353 / Inquiry 944 (QRY-944) / Quote 1701, form /inquiry-management/update-inquiry/dfb79d89-...
5. Preconditions	Inquiry open in Update Inquiry; total Rs 8,300
6. Steps to reproduce	1. Login to Admin Preprod 2. Lead Management > Search Lead Info "LD-353" > menu > Send To Inquiry (opens Update Inquiry) 3. In Vehicle Costs set ADDITIONAL HR'S = 1 (EXTRA HOUR rate 800) 4. Click Update Quote 5. Re-open the inquiry; also open Inquiry list > View Quote
7. Expected result	Final Quote = 7,500 + 800 + 1 x 800 = Rs 9,100 (live and after save)
8. Actual result	Final Quote stays Rs 8,300.00; Additional HR's 1.00 is saved. Same for Additional KM 10, Toll 100 (saved), Any Extras 50, Day Bata Days 2 and Fixed Cost 9000 with Apply ticked
9. Description	The quote total ignores edits to every cost component, so revised quotes, bookings and invoices keep the original amount. Mirrors the User-Web defect where the 9 HR inquiry is priced as 8 HR.

10. Evidence

ISS-08 Requested hour package from User-Web is not visible in Admin

Clarification | Data inconsistency | Medium

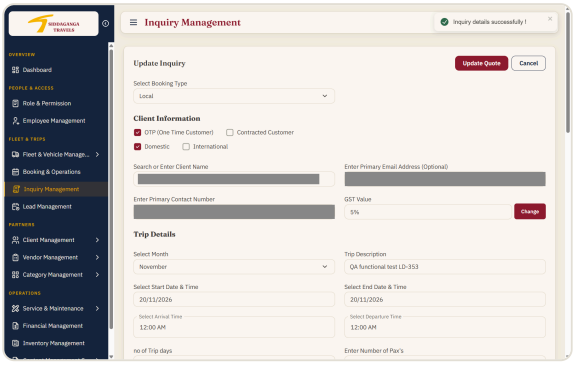

1. Issue ID	ISS-08
2. Module and screen	Quotation / Update Quote · Lead details / Update Inquiry
3. Title	Requested hour package from User-Web is not visible in Admin
4. Environment and record	Admin Preprod (dari-preprod.siddagangatravels.com), Superadmin session LD-353 / Inquiry 944 (QRY-944) / Quote 1701, form /inquiry-management/update-inquiry/dfb79d89-...; User-Web TC-07 submitted 8 HR and 9 HR variants (LD-352, LD-353)
5. Preconditions	Two User-Web inquiries differing only by hours
6. Steps to reproduce	1. Open View Lead for LD-353 2. Open Update Inquiry for LD-353
7. Expected result	Requested hours (e.g. 9 HR) shown, with Additional HR's pre-filled
8. Actual result	Neither screen shows the requested hours; package column fixed at 8 HR/80 KM with Additional HR's 0
9. Description	Admin cannot tell whether the customer asked for 8 or 9 hours, so the extra-hour charge cannot be applied. Business clarification needed on where the hours are stored.

10. Evidence	
11. Severity / priority	Medium (priority P2)
12. Classification	Data inconsistency · needs business clarification

ISS-11 Inquiry KPI cards inconsistent with the list (109 vs 8; conversion, pending and quote value 0)

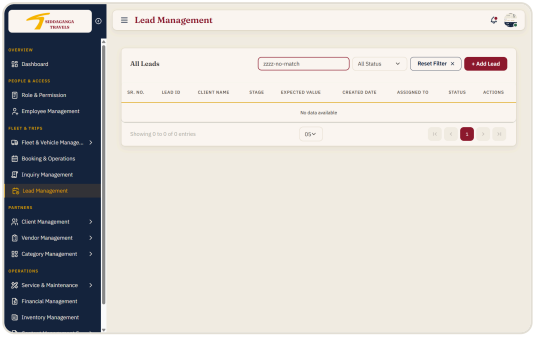

Clarification | Data inconsistency | Medium

1. Issue ID	ISS-11
2. Module and screen	Inquiry Management · Total Inquiries KPI cards
3. Title	Inquiry KPI cards inconsistent with the list (109 vs 8; conversion, pending and quote value 0)
4. Environment and record	Admin Preprod (dari-preprod.siddagangatravels.com), Superadmin session Inquiry list (QRY-944 among others)
5. Preconditions	Inquiries with quotes exist
6. Steps to reproduce	1. Login to Admin Preprod 2. Open Inquiry Management 3. Read KPI cards and the "Showing x of y entries" with no filters
7. Expected result	Total Inquiries equals the list total (or the card states its scope); Total Quote Value sums quotes; conversion rate reflects converted inquiries
8. Actual result	Total Inquiries 109; list "Showing 1 to 5 of 8 entries"; Conversion Rate 0, Pending Approvals 0, Total Quote Value 0
9. Description	Either the list hides converted inquiries without saying so, or the cards are not computed. Needs business clarification of each card definition.
10. Evidence	
11. Severity / priority	Medium (priority P2)
12. Classification	Data inconsistency · needs business clarification

Found in: IM-02

ISS-12 Inquiry PNR is not searchable in Lead, Inquiry or Booking lists

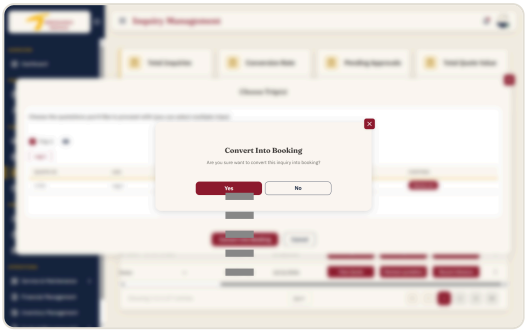

Observation | UX | Medium

1. Issue ID	ISS-12
2. Module and screen	Lead / Inquiry / Booking lists · Search fields
3. Title	Inquiry PNR is not searchable in Lead, Inquiry or Booking lists
4. Environment and record	Admin Preprod (dari-preprod.siddagangatravels.com), Superadmin session SOQS555799 / LD-353
5. Preconditions	Lead list
6. Steps to reproduce	1. Lead Management > Search Lead Info "SOQS555799"
7. Expected result	The lead with that PNR is found (PNR is the customer-facing reference)
8. Actual result	"No data available"; PNR only visible inside View Lead
9. Description	Support staff receiving a PNR from a customer cannot locate the lead/inquiry/booking without already knowing the Lead ID (same in Inquiry and Booking search, run 20261112).
10. Evidence	
11. Severity / priority	Medium (priority P2)
12. Classification	UX

Found in: LM-03, XC-02

ISS-13 Grammar: "Are you sure want to convert this inquiry into booking?"

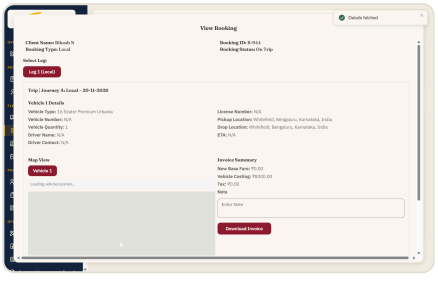

Observation | Content | Low

1. Issue ID	ISS-13
2. Module and screen	Inquiry Management · Convert Into Booking confirmation
3. Title	Grammar: "Are you sure want to convert this inquiry into booking?"
4. Environment and record	Admin Preprod (dari-preprod.siddagangatravels.com), Superadmin session B-944 (LD-353 / QRY-944 / PNR SOQS555799)
5. Preconditions	Inquiry with quote
6. Steps to reproduce	1. Inquiry Management > QRY-944 menu > Send To Booking 2. Convert into Booking
7. Expected result	"Are you sure you want to convert this inquiry into a booking?"
8. Actual result	"Are you sure want to convert this inquiry into booking?"
9. Description	Missing "you" and article.
10. Evidence	
11. Severity / priority	Low (priority P3)
12. Classification	Content

ISS-16 **Edit Booking opens a "Record Advance Payment?" prompt before the edit form**

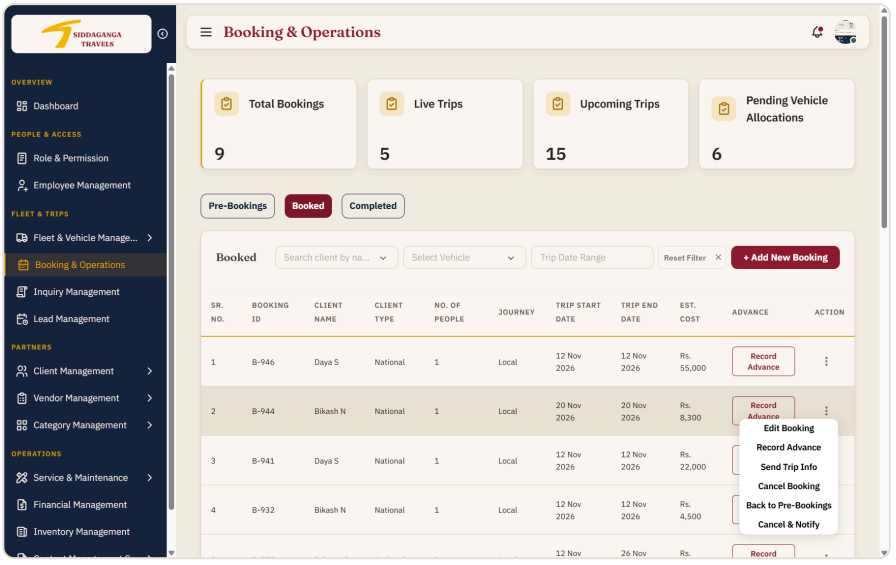

Observation | UX | Low

1. Issue ID	ISS-16
2. Module and screen	Pre-Bookings · Pre-Bookings > Edit Booking
3. Title	Edit Booking opens a "Record Advance Payment?" prompt before the edit form
4. Environment and record	Admin Preprod (dari-preprod.siddagangatravels.com), Superadmin session B-944 (LD-353 / QRY-944 / PNR SOQS555799)
5. Preconditions	B-944 in Pre-Bookings
6. Steps to reproduce	1. Login to Admin Preprod 2. Booking & Operations > Pre-Bookings > Search Booking Info "B-944" 3. Row menu > Edit Booking
7. Expected result	Update Booking form opens
8. Actual result	Prompt "Record Advance Payment? Bikash N - Booking B-944" (Yes, Record Advance / No, Not Now / Cancel); form opens only after No, Not Now
9. Description	The advance prompt interrupts unrelated actions (edit, confirm, allocation, dispatch, start, complete, close).
10. Evidence	
11. Severity / priority	Low (priority P3)
12. Classification	UX

Found in: PB-05, XC-06

ISS-17 "Total Bookings" card counts only Pre-Bookings

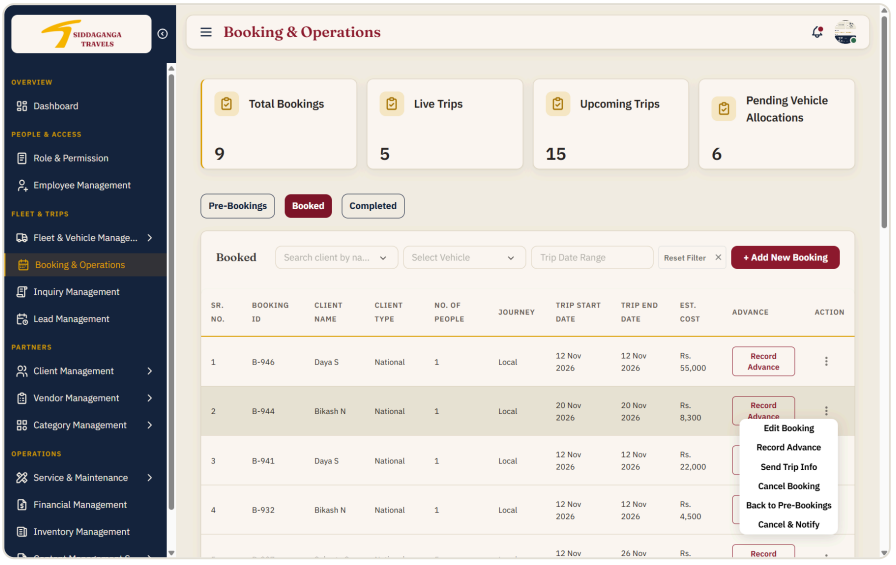

Observation | Terminology | Low

1. Issue ID	ISS-17
2. Module and screen	Pre-Bookings · Booking & Operations KPI cards
3. Title	"Total Bookings" card counts only Pre-Bookings
4. Environment and record	Admin Preprod (dari-preprod.siddagangatravels.com), Superadmin session B-944 (LD-353 / QRY-944 / PNR SOQS555799)
5. Preconditions	Bookings in Pre-Bookings and Booked
6. Steps to reproduce	1. Booking & Operations 2. Compare "Total Bookings" with Pre-Bookings and Booked counts
7. Expected result	Total Bookings = all bookings, or card renamed "Pre-Bookings"
8. Actual result	Total Bookings 9-10 = Pre-Bookings count; Booked tab lists 24 bookings
9. Description	Card label misrepresents its count.
10. Evidence	
11. Severity / priority	Low (priority P3)
12. Classification	Terminology

Found in: PB-07

ISS-18 Closed booking B-932 (trip TP-111, Trip Closed Yes) still listed under Booked; Booked has no Booking ID search

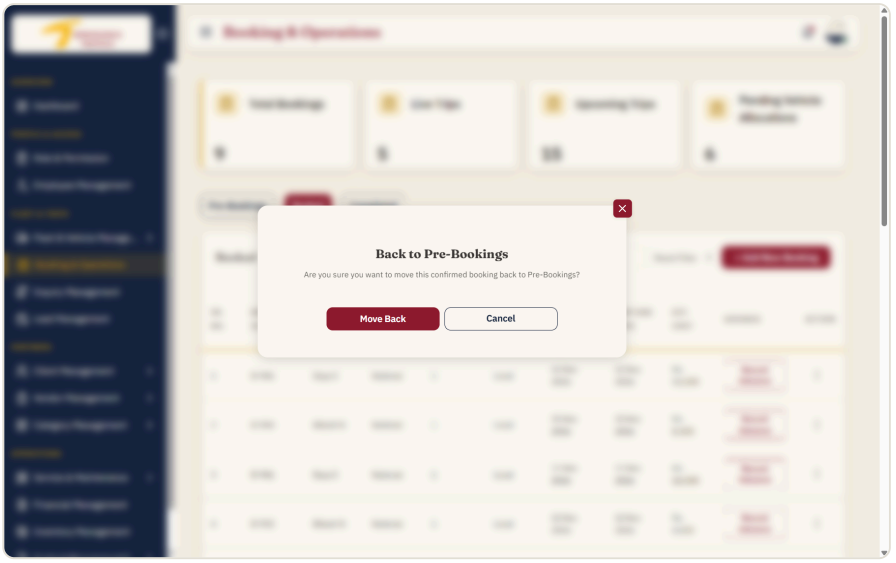

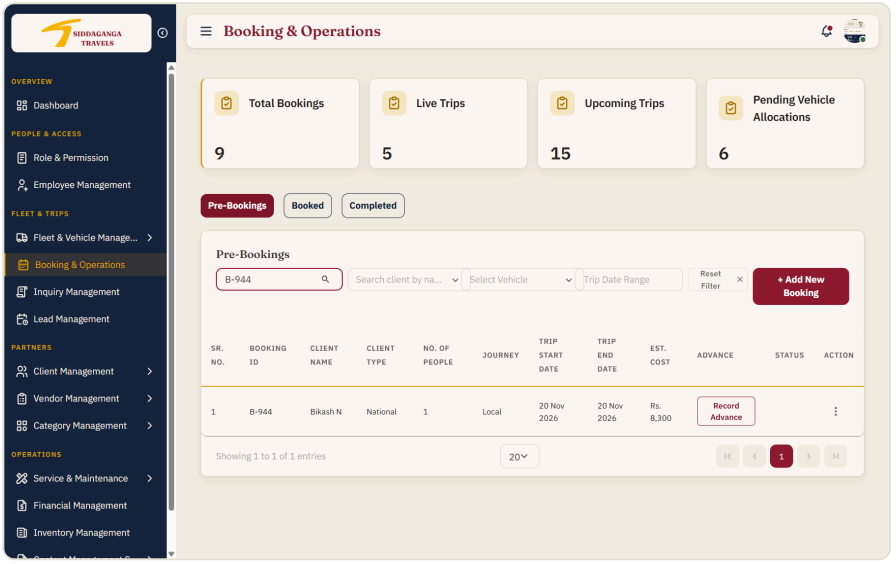

Defect | Data inconsistency | Medium

1. Issue ID	ISS-18
2. Module and screen	Booked · Booked tab
3. Title	Closed booking B-932 (trip TP-111, Trip Closed Yes) still listed under Booked; Booked has no Booking ID search
4. Environment and record	Admin Preprod (dari-preprod.siddagangatravels.com), Superadmin session B-932 / TP-111 (closed in run 20261112); B-944
5. Preconditions	Trip TP-111 closed (Completed Trips: Trip Closed Yes)
6. Steps to reproduce	1. Booking & Operations > Booked 2. Page through the list
7. Expected result	Closed booking moves out of Booked (Completed); Booking ID search available as in Pre-Bookings
8. Actual result	B-932 still in Booked (row 4); only client/vehicle/date filters
9. Description	Booked mixes active and closed bookings, and staff must page through to find a booking ID.
10. Evidence	
11. Severity / priority	Medium (priority P2)
12. Classification	Data inconsistency

Found in: BK-01, XC-02

ISS-19 Back to Pre-Bookings toast says "related booking data removed" without stating what is removed

Clarification | Content | Low

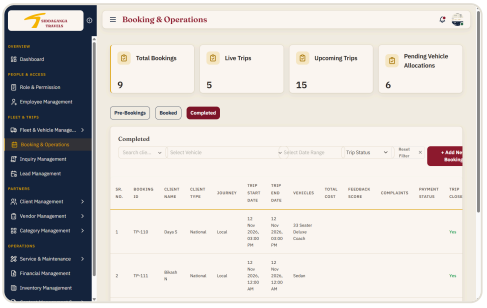

1. Issue ID	ISS-19
2. Module and screen	Booked · Back to Pre-Bookings
3. Title	Back to Pre-Bookings toast says "related booking data removed" without stating what is removed
4. Environment and record	Admin Preprod (dari-preprod.siddagangatravels.com), Superadmin session B-944 (LD-353 / QRY-944 / PNR SOQS555799)
5. Preconditions	B-944 in Booked
6. Steps to reproduce	1. Booked > B-944 menu > Back to Pre-Bookings 2. Move Back
7. Expected result	Clear message; confirmation dialog warns about data removal
8. Actual result	Dialog only asks to move back; toast afterwards "Booking unconfirmed and related booking data removed!" (description/pax/cost were intact)
9. Description	Users are warned of data loss only after the action; the scope of removal is unclear (clarify).
10. Evidence	 
11. Severity / priority	Low (priority P3)

12. Classification	Content · needs business clarification

`ISS-20` Completed tab column "BOOKING ID" shows trip IDs (TP-110)

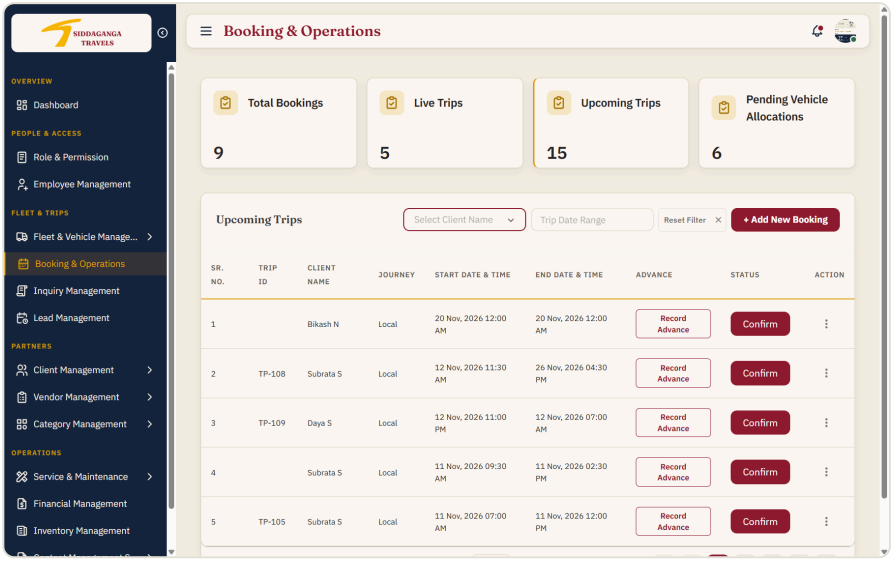

Observation · Terminology · Low

1. Issue ID	`ISS-20`
2. Module and screen	Booked · Completed tab
3. Title	Completed tab column "BOOKING ID" shows trip IDs (TP-110)
4. Environment and record	Admin Preprod (dari-preprod.siddagangatravels.com), Superadmin session B-944 (LD-353 / QRY-944 / PNR SOQS555799)
5. Preconditions	Completed bookings exist
6. Steps to reproduce	1. Booking & Operations > Completed
7. Expected result	Booking IDs (B-xxx) or column named Trip ID
8. Actual result	BOOKING ID column values TP-110 etc.
9. Description	Column label and values disagree.
10. Evidence	
11. Severity / priority	Low (priority P3)
12. Classification	Terminology

Found in: BK-03

ISS-21 Upcoming Trips shows a blank TRIP ID (and no Booking ID) for a confirmed booking until trip approval

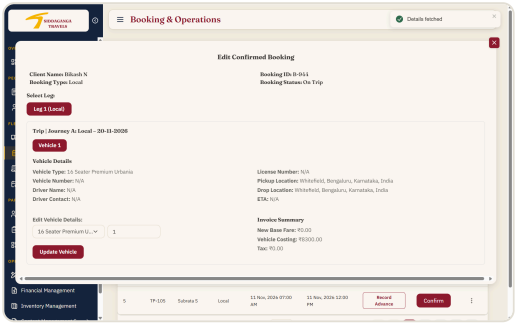

Observation | UI | Medium

1. Issue ID	ISS-21
2. Module and screen	Upcoming Trip / Trip Approval · Upcoming Trips table
3. Title	Upcoming Trips shows a blank TRIP ID (and no Booking ID) for a confirmed booking until trip approval
4. Environment and record	Admin Preprod (dari-preprod.siddagangatravels.com), Superadmin session B-944 / TP-112 (LD-353, PNR SOQS555799)
5. Preconditions	B-944 confirmed, not yet sent to trip approval
6. Steps to reproduce	1. Login to Admin Preprod 2. Booking & Operations > Upcoming Trips card (/booking-management/upcoming-trips) 3. Locate row Bikash N, Local, 20 Nov 2026 12:00 AM (Trip ID blank before approval) 4. Read TRIP ID column
7. Expected result	A reference (Booking ID or Trip ID) identifying the row
8. Actual result	TRIP ID empty; row identifiable only by client/date; Booking ID visible only inside the advance prompt
9. Description	Also seen for B-932 in run 20261112. Staff cannot tell which booking a row belongs to.
10. Evidence	
11. Severity / priority	Medium (priority P2)
12. Classification	UI

Found in: UT-01, XC-02

ISS-22 **Edit Booking from Upcoming Trips does nothing after declining the advance prompt**

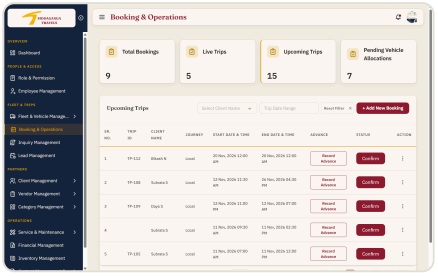

Defect | Functional | Medium

1. Issue ID	ISS-22
2. Module and screen	Upcoming Trip / Trip Approval · Upcoming Trips > Edit Booking
3. Title	Edit Booking from Upcoming Trips does nothing after declining the advance prompt
4. Environment and record	Admin Preprod (dari-preprod.siddagangatravels.com), Superadmin session B-944 / TP-112 (LD-353, PNR SOQS555799)
5. Preconditions	B-944 in Upcoming Trips (before approval)
6. Steps to reproduce	1. Login to Admin Preprod 2. Booking & Operations > Upcoming Trips card (/booking-management/upcoming-trips) 3. Locate row Bikash N, Local, 20 Nov 2026 12:00 AM (Trip ID blank before approval) 4. Row menu > Edit Booking 5. Click No, Not Now
7. Expected result	Update Booking form opens
8. Actual result	Prompt closes; no form, page stays on Upcoming Trips
9. Description	From Pre-Bookings the same action opens /update-booking/<uuid>; from Upcoming Trips the edit path is dead.
10. Evidence	
11. Severity / priority	Medium (priority P2)
12. Classification	Functional

Found in: UT-03

ISS-23 Duty notification shows pickup "@ -" and drop "-" and report time 12:00 AM

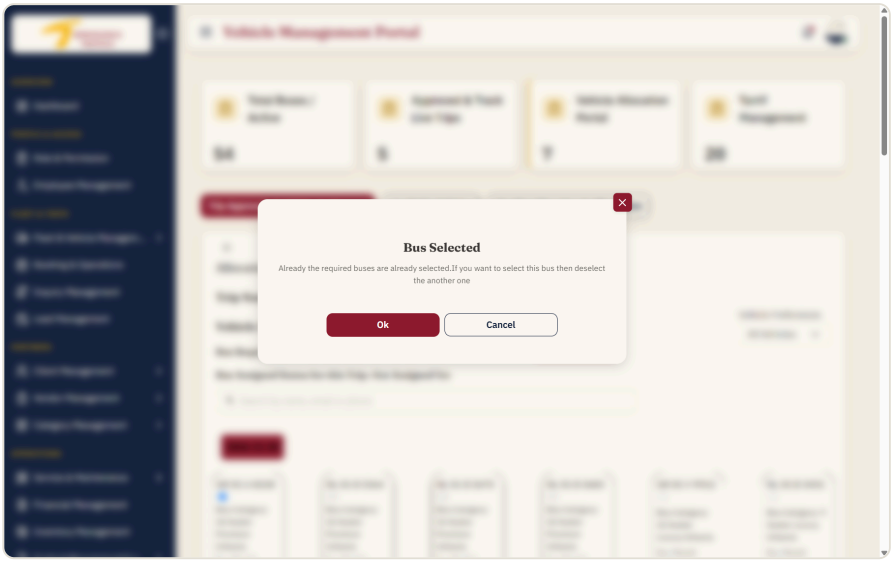

Defect | Data inconsistency | Medium

1. Issue ID	ISS-23
2. Module and screen	Upcoming Trip / Trip Approval · Duty assignment notification
3. Title	Duty notification shows pickup "@ -" and drop "-" and report time 12:00 AM
4. Environment and record	Admin Preprod (dari-preprod.siddagangatravels.com), Superadmin session B-944 / TP-112 (LD-353, PNR SOQS555799)
5. Preconditions	B-944 in Upcoming Trips
6. Steps to reproduce	1. Login to Admin Preprod 2. Booking & Operations > Upcoming Trips card (/booking-management/upcoming-trips) 3. Locate row Bikash N, Local, 20 Nov 2026 12:00 AM (Trip ID blank before approval) 4. Row menu > Send To Trip Approval > Yes 5. Read notification
7. Expected result	Report time 9:00 AM @ Whitefield, drop Whitefield
8. Actual result	"New duty TP-112 - Local, report 12:00 AM @ -, drop -"
9. Description	Locations missing although the trip has Whitefield; same in run 20261112 (TP-111).
10. Evidence	
11. Severity / priority	Medium (priority P2)
12. Classification	Data inconsistency

ISS-25 "Edit Bus Details" opens the allocation-type dialog instead of a bus details form

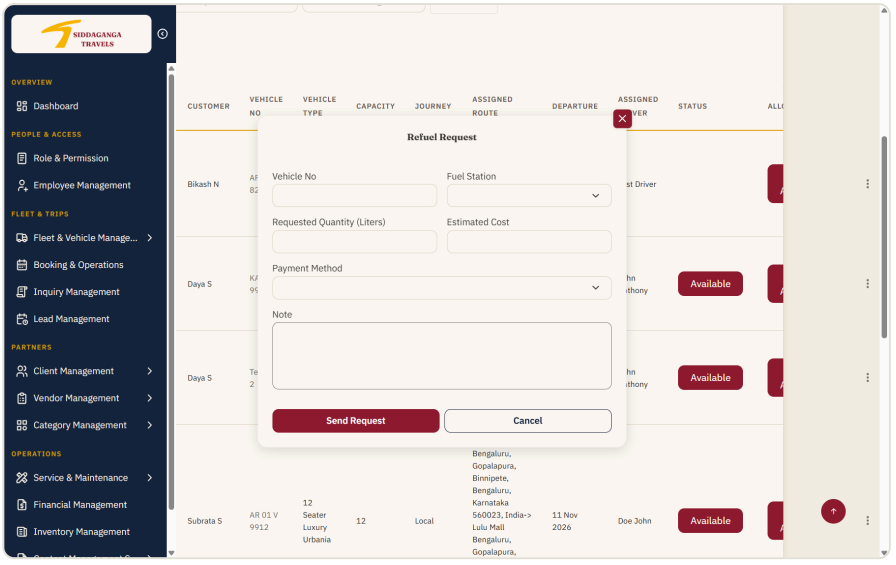

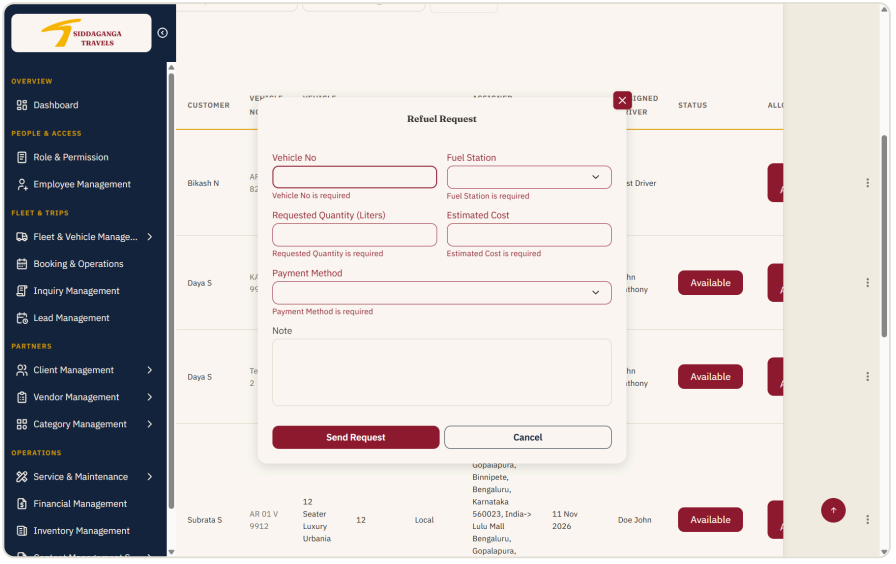

Defect | Functional | Medium

1. Issue ID	ISS-25
2. Module and screen	Approved & Track Live Trips · Approved Vehicles > Edit Bus Details
3. Title	"Edit Bus Details" opens the allocation-type dialog instead of a bus details form
4. Environment and record	Admin Preprod (dari-preprod.siddagangatravels.com), Superadmin session TP-112 / AR 01 U 8228 (B-944, LD-353)
5. Preconditions	TP-112 in Approved Vehicles
6. Steps to reproduce	1. Login 2. Approved & Track Live Trips > Approved Vehicles 3. TP-112 menu > Edit Bus Details 4. Advance prompt: No, Not Now
7. Expected result	Form to edit bus details for the trip
8. Actual result	"Select the type of allocation you need - Dynamic Allocation - Continue / Cancel"
9. Description	Menu label does not match the action; it re-enters the vehicle allocation flow.
10. Evidence	
11. Severity / priority	Medium (priority P2)
12. Classification	Functional

Found in: AT-04

ISS-26 **Refuel Request does not pre-fill the trip vehicle number**

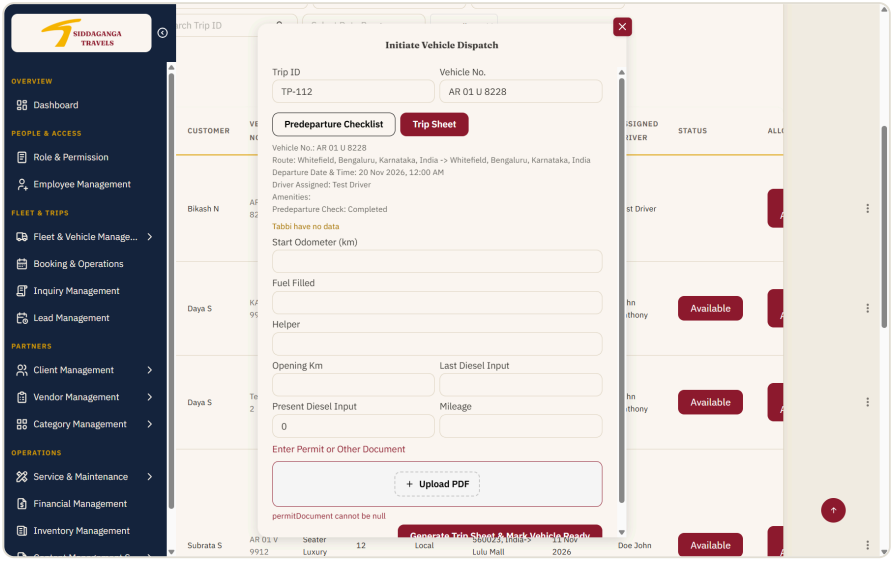

Observation | UX | Low

1. Issue ID	ISS-26
2. Module and screen	Approved & Track Live Trips · Refuel Request
3. Title	Refuel Request does not pre-fill the trip vehicle number
4. Environment and record	Admin Preprod (dari-preprod.siddagangatravels.com), Superadmin session TP-112 / AR 01 U 8228 (B-944, LD-353)
5. Preconditions	TP-112 in Approved Vehicles (vehicle AR 01 U 8228)
6. Steps to reproduce	1. TP-112 menu > Refuel Request 2. Advance prompt: No, Not Now 3. Read Vehicle No
7. Expected result	Vehicle No = AR 01 U 8228
8. Actual result	Vehicle No empty; "Vehicle No is required" on submit
9. Description	Opened from a specific trip, the form should know the vehicle.
10. Evidence	 
11. Severity / priority	Low (priority P3)
12. Classification	UX

ISS-31 Odometer, fuel and mileage accept implausible values (negative odometer, 99,999 L, mileage 0, opening km != start odometer)

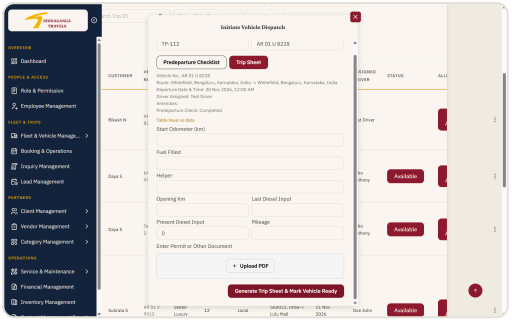

Defect | Validation | Medium

1. Issue ID	ISS-31
2. Module and screen	Vehicle Dispatch · Initiate Vehicle Dispatch > Trip Sheet
3. Title	Odometer, fuel and mileage accept implausible values (negative odometer, 99,999 L, mileage 0, opening km != start odometer)
4. Environment and record	Admin Preprod (dari-preprod.siddagangatravels.com), Superadmin session TP-112 / AR 01 U 8228 (B-944, LD-353)
5. Preconditions	Dispatch Trip Sheet
6. Steps to reproduce	1. Login to Admin Preprod 2. Fleet & Vehicles > Approved & Track Live Trips > Approved Vehicles 3. TP-112 menu > Initiate Vehicle Dispatch 4. Advance prompt: No, Not Now 5. Next 6. Start Odometer -50; Fuel Filled 99999; Mileage 0; Opening Km 100 with Start Odometer 200 7. Submit
7. Expected result	Range checks and consistency between Start Odometer and Opening Km
8. Actual result	All values accepted; only the missing permit is reported
9. Description	These values feed the trip sheet and later km billing.
10. Evidence	
11. Severity / priority	Medium (priority P2)
12. Classification	Validation

Found in: VD-03

ISS-32 **Safety equipment confirmation is not required to dispatch (clarify)**

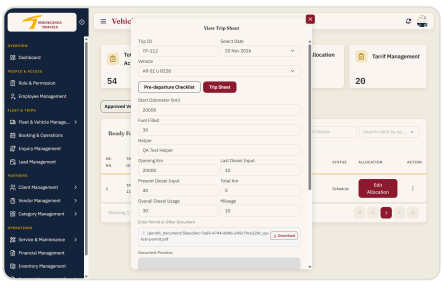

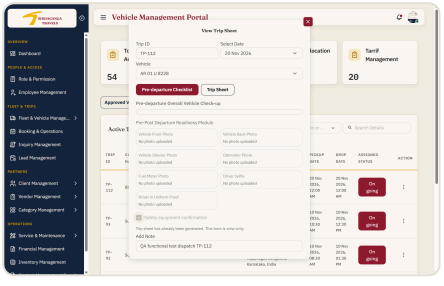

Clarification | Validation | Low

1. Issue ID	ISS-32
2. Module and screen	Vehicle Dispatch · Predeparture Checklist
3. Title	Safety equipment confirmation is not required to dispatch (clarify)
4. Environment and record	Admin Preprod (dari-preprod.siddagangatravels.com), Superadmin session TP-112 / AR 01 U 8228 (B-944, LD-353)
5. Preconditions	Dispatch form open
6. Steps to reproduce	1. Login to Admin Preprod 2. Fleet & Vehicles > Approved & Track Live Trips > Approved Vehicles 3. TP-112 menu > Initiate Vehicle Dispatch 4. Advance prompt: No, Not Now 5. Leave Safety equipment confirmation unticked 6. Next
7. Expected result	Business rule: safety confirmation mandatory before dispatch?
8. Actual result	Next allowed without it (submit later succeeded with it ticked; not tested unticked to avoid dispatching unsafely)
9. Description	Needs business confirmation.
10. Evidence	
11. Severity / priority	Low (priority P3)
12. Classification	Validation · needs business clarification
