KEY MESSAGES

- Extra-hour charges displayed in every Fare Breakup are never applied (TC-07, TC-03).
- Distance is always 80 KM, so extra-km charges can never apply (TC-05, TC-06, TC-08).
- Groups above 49 passengers cannot submit: a second vehicle replaces the first (TC-04).
- Vehicle details show wrong subtitle/photos and raw JSON; booking vs inquiry wording is inconsistent end to end.
- TC-06 passenger validation was not recorded (automation timeout) — not reported as an app defect.

Legend: **Defect** = confirmed behaviour contrary to a displayed rule or plain correctness. **Inconsistency** = content/UI/UX mismatch. **Suggestion** = improvement idea. **Clarification** = business rule unknown; not claimed as a defect.

Test case details

TC-01 – Normal Local trip (CFG-1) Pass

Objective: Main Local path from search to submitted inquiry with default drop = pickup; fare consistent with the Sedan Fare Breakup.

CONFIGURATION & TEST DATA

Trip type	Local
Multi-day	OFF
Different Drop	OFF
Data row	LOC-001
Pickup	Whitefield, Bengaluru, Karnataka, India
Drop	(default = pickup) Whitefield

Date	12 Nov 2026
Time	3:00 PM
Passengers	1
Hours	1
Selected vehicle	Sedan (D SDN, 4 seats), results page 1

JOURNEY / ACTIONS PERFORMED

1. Logged in (automated, Mobile Number mode).
2. Home → Local; entered pickup via Google suggestion; set date, time, passengers 1, hours 1.
3. Book Now! → /send-inquiry: 20 vehicles, "Local – 1 HR / 80 KM", Distance 80 KM.
4. Opened View Full Vehicle Details for Sedan → recorded Local Trip Pricing.
5. Book This Vehicle → "Confirm Your Trip & Selected Vehicles" → recorded Estimated Trip Cost.
6. Clicked "Confirm & Submit Booking" → "Inquiry Submitted Successfully!" (API save-inquiry 201).

EXPECTED

- Results load with the trip summary and vehicles.
- Fare Breakup visible for the selected vehicle.
- Applied fare consistent with the Fare Breakup.
- Inquiry submitted successfully.

ACTUAL

- Results loaded (20 vehicles).
- Fare Breakup recorded (₹4,000 base, ₹32/km, ₹400/hr, Day/Night Bata ₹500).
- Applied: ₹4,000 + Day Bata ₹500 + Night Bata ₹0 = ₹4,500 — consistent.
- Success popup with Estimated Cost ₹4,500; save-inquiry 201.

Status rationale: All case-specific expectations met. Content/UI issues were observed and are reported separately; GST presentation is a clarification, not a failed expectation.

Fare verification (shared procedure: `User-Web/.claude/shared/fare-verification.md`)

COMPARISON

- Base equals Fare Breakup base rate.
- 1-hour trip charged the full 8 Hr / 80 Km base (minimum package) — consistent with breakup wording; label mismatch reported (TC-01-Issue-05).

Fare verdict: **Pass**

NEEDS BUSINESS/DEVELOPER CLARIFICATION

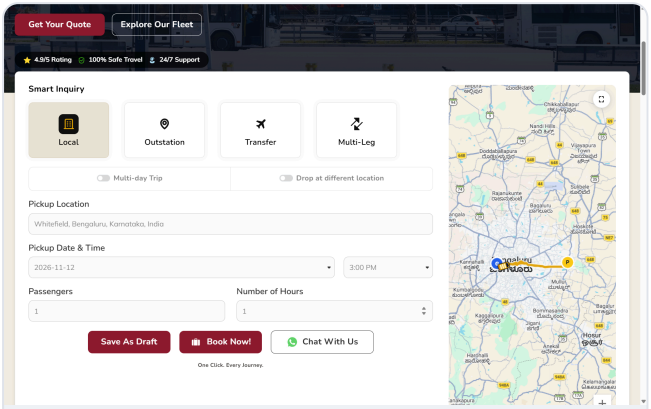

- GST "Additional" not in estimate.

STEPS TO REPRODUCE

1. Run a Local search (e.g. Whitefield, 1 pax, 1 hr) → Book Now!.
2. Open View Full Vehicle Details for "Sedan".

EXPECTED

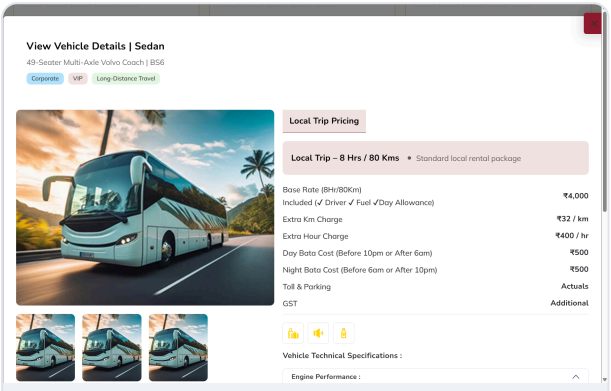

Subtitle, tags and images describe the selected Sedan (4 seats).

ACTUAL

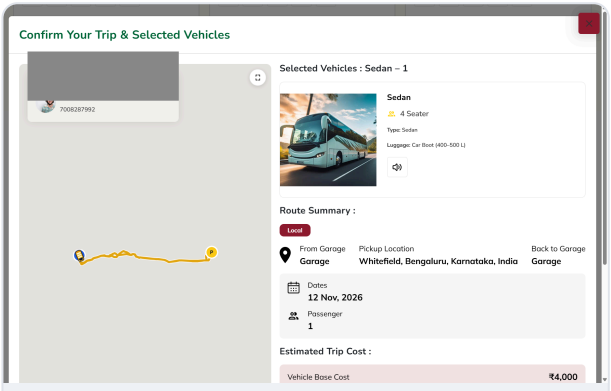

Header "View Vehicle Details | Sedan" with subtitle "49-Seater Multi-Axle Volvo Coach | BS6", tags Corporate / VIP / Long-Distance Travel and coach photos. Same subtitle for 12 Seater Tempo Traveller, 25/49 Seater coaches, 16 Seater Urbania, etc. The confirmation screen also shows a coach image for Sedan.

IMPACT

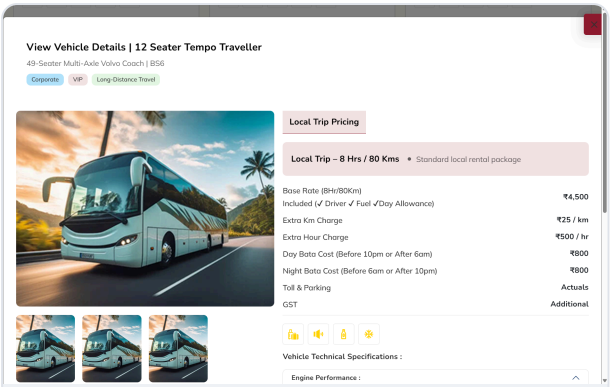

Misleading vehicle information at the decision point; undermines trust in the selection.

2. Scroll to "Vehicle Comfort Metrics".

EXPECTED

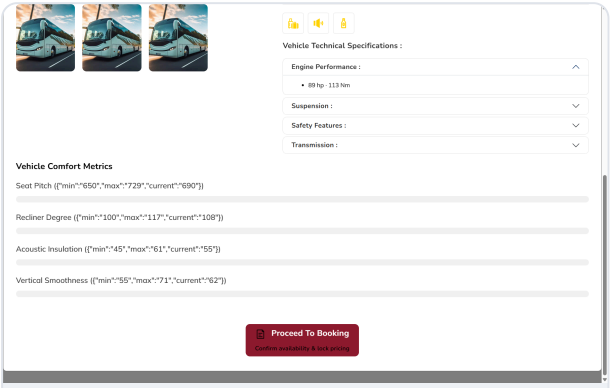

Readable values (e.g. "Seat Pitch: 690 mm") and filled indicator bars.

ACTUAL

Labels show raw data: Seat Pitch ({"min":"650","max":"729","current":"690"}), Recliner Degree ({...}), Acoustic Insulation ({...}), Vertical Smoothness ({...}); bars are empty. Suspension / Safety Features / Transmission sections are collapsed with no visible content.

IMPACT

Unprofessional UI; information is unusable for customers.

STEPS TO REPRODUCE

1. Run any Local search → Book Now!.
2. Look at the first card "33 Seater Deluxe Coach" (D35NA).

EXPECTED

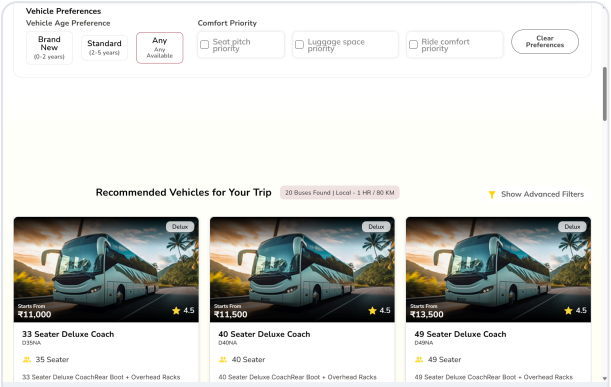

Name, code and seat count agree.

ACTUAL

Name "33 Seater Deluxe Coach", code D35NA, capacity "35 Seater". (During exploration the SUV card also showed "0 Seater"; not re-captured in this run.)

IMPACT

Capacity checks and customer choice rely on the seat count; wrong data can block or mislead group inquiries.

2. Results: each card "Book This Vehicle"; details modal "Proceed To Booking — Confirm availability & lock pricing".
3. Confirmation modal CTA: "Confirm & Submit Booking".
4. After clicking it: popup "Inquiry Submitted Successfully! … Estimated Cost (Approx.)" with buttons "Track My Booking" / "Back to Home".

EXPECTED

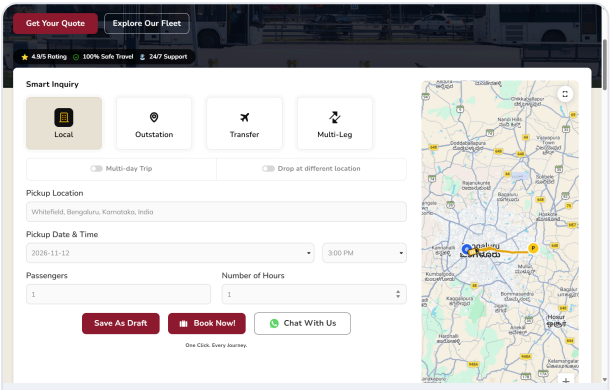

Consistent wording that matches what actually happens: an inquiry is raised and a price is calculated later (e.g. "Get Quote", "Select Vehicle", "Submit Inquiry", "Track My Inquiry").

ACTUAL

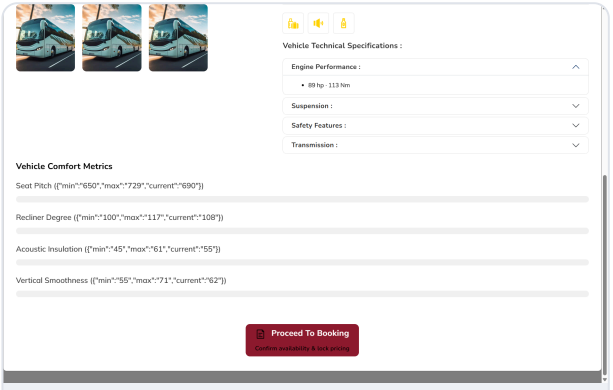

Booking wording everywhere except the success title, which says Inquiry; the page intro also says "submit your inquiry". "lock pricing" contradicts "Final quote may vary".

IMPACT

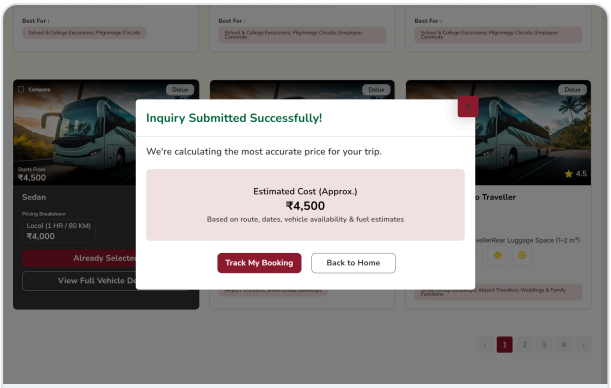

Customers may believe a confirmed booking or locked price was created.

Home form: "Book Now!"

Details: "Proceed To Booking / lock pricing"

Success: "Inquiry Submitted Successfully!" + "Track My Booking"

STEPS TO REPRODUCE

1. Local search with Hours = 1 → Book Now!.
2. Book This Vehicle on Sedan and close/observe the card behind the success popup; open View Full Vehicle Details.

EXPECTED

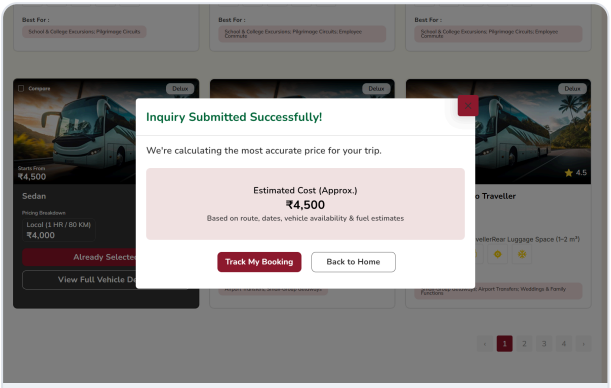

One consistent package definition (either an N-hour package or the 8 Hr / 80 Km minimum package).

ACTUAL

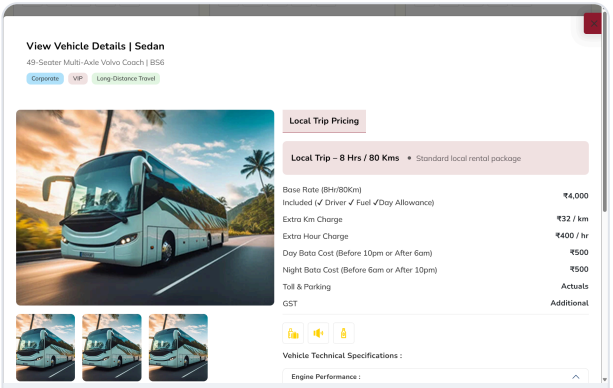

Card/header say "1 HR / 80 KM" at ₹4,000 while the Fare Breakup calls ₹4,000 the 8 Hr / 80 Km base rate. Same pattern for 8/9/12/24 hrs.

IMPACT

Customer cannot tell what is included; related to TC-07-Issue-01.

TC-02 – Multi-day trip (CFG-2) Inconclusive

Objective: Multi-day minimum (2 dates), capacity boundary (13 vs 12 seats), hours maximum (24); fare = day fare × days.

CONFIGURATION & TEST DATA

Trip type	Local

Multi-day	ON
Different Drop	OFF
Data row	LOC-013 (pickup only)
Pickup	Malleshwaram, Bengaluru, Karnataka, India
Dates	12 Nov 2026 (auto-selected, cannot be removed) + 20 Nov 2026
Time	3:00 PM
Passengers	13 (comparison search) then 12 (submitted)
Hours	24
Selected vehicle	12 Seater Tempo Traveller (D12TT)

JOURNEY / ACTIONS PERFORMED

1. Search 1: 13 passengers → results unchanged (20 vehicles incl. Sedan) — passenger count does not filter the list.
2. Supplementary: Book This Vehicle on D12TT with 13 pax → "Passenger Capacity Not Complete! … cover only 12 seats" (capacity is enforced at selection).
3. Search 2: 12 passengers → View Full Vehicle Details (D12TT) → Book This Vehicle → Confirm & Submit → success (save-inquiry 201).

EXPECTED

- Two dates accepted; Duration 2 Days.
- Capacity enforced for 13 pax on a 12-seater.
- Fare = per-day fare × 2, consistent with Fare Breakup.
- Inquiry submitted.

ACTUAL

- Dates "12,20 Nov, 2026", Duration 2 Days, "Local – 24 HR / 80 KM".
- Capacity popup shown for 13 pax (enforced only after selection).
- Applied ₹4,500×2 + ₹800×2 = ₹10,600; no extra hours, night bata ₹0.
- Submitted successfully.

Status rationale: Flow and submission verified, but whether 24 hours/day should add extra-hour and night-bata charges in multi-day trips is not defined (TC-02-Issue-01). Not marked Pass.

EXPECTED

- Drop accepted and shown.
- 49 pax fits one 49-seater.
- Applied fare matches Fare Breakup incl. 4 extra hours and night bata.
- Inquiry submitted.

ACTUAL

- Drop shown in results summary (not on confirmation screen).
- Accepted.
- Applied ₹12,500 + Day ₹1,000 + Night ₹1,000 = ₹14,500; 4 extra hours × ₹1,200 not applied.
- Submitted.

STEPS TO REPRODUCE

1. Home → Local → turn ON Multi-day Trip and Drop at different location.
2. Pickup: Jayanagar 4th Block. Drop: Mysuru Palace. Dates: 12 Nov (auto), 5 Dec, 6 Dec 2026. Time 3:00 PM. Passengers 50. Hours 8.
3. Book Now! → Book This Vehicle on "45 Seater Luxury Volvo" (L45V). Popup: "You need seats for 50 passengers, but your selected buses cover only 45 seats. Please add one or more buses to continue." Only button: "Cancel Inquiry".
4. Close the popup with × (L45V card still shows "Already Selected").
5. Book This Vehicle on "9 Seater Luxury Urbania" (L9UB).

EXPECTED

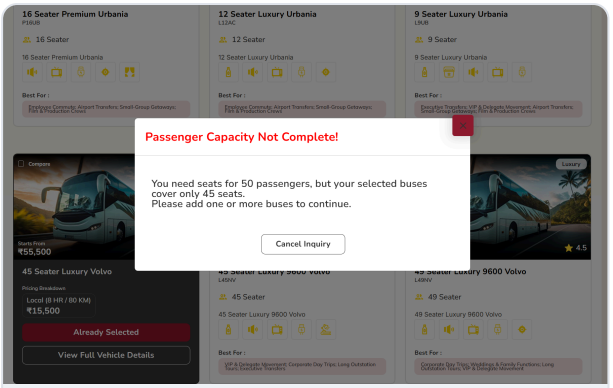

The second vehicle is added to the selection (45 + 9 = 54 seats ≥ 50) and the flow continues to Confirm Your Trip & Selected Vehicles (ADD-006: above 49 passengers → multiple vehicles).

ACTUAL

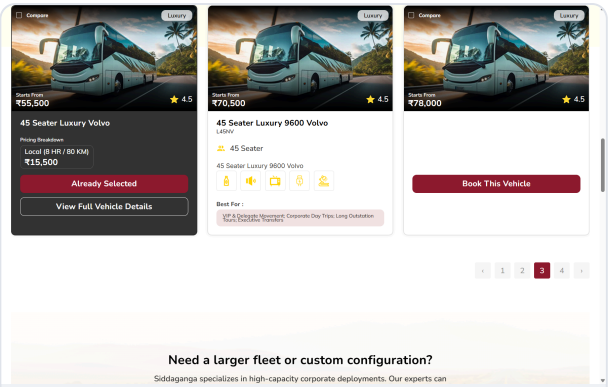

Popup now says "cover only 9 seats" — the 9-seater replaced the 45-seater. No quantity / add-vehicle control exists; the popup offers only "Cancel Inquiry". The inquiry cannot be submitted for 50 passengers.

IMPACT

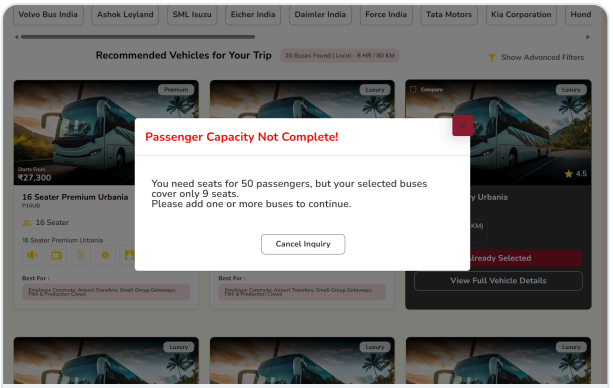

Any group above the largest single vehicle (49) cannot raise a Local inquiry through the standard flow, although the app itself instructs the user to add buses.

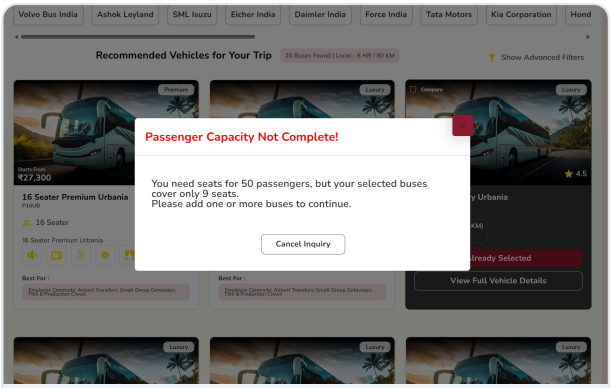

Popup after selecting L45V: 45 seats

After closing popup: L45V still "Already Selected"

After selecting L9UB: "cover only 9 seats"

STEPS TO REPRODUCE

1. Search with more passengers than the vehicle seats (e.g. 13 pax) → Book This Vehicle on 12 Seater Tempo Traveller.

EXPECTED

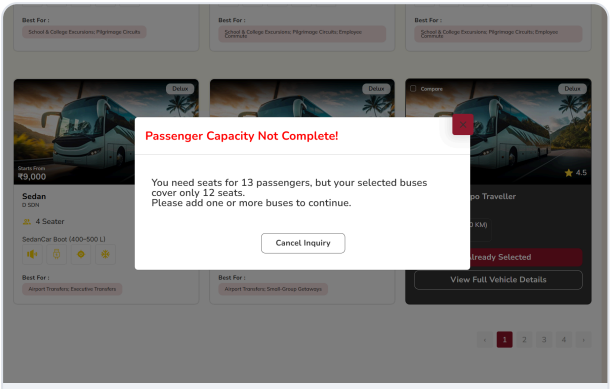

A primary action to add/select another vehicle (or adjust passengers) and a neutral close.

ACTUAL

TC-05 – Long-distance and out-of-state drop (CFG-3) Fail

Objective: Long-distance behaviour in Local, out-of-state drop, booking-window limit (2028), capacity 22 on a 25-seater.

CONFIGURATION & TEST DATA

Trip type	Local
Multi-day	OFF
Different Drop	ON
Data rows	LOC-023, LOC-016
Pickup	Yeshwanthpur, Bengaluru, Karnataka, India
Drop	Belagavi, Karnataka, India (submitted); comparison: Sarjapur Road → Hogenakkal (Tamil Nadu)

Date	15 Nov 2028
Time	9:00 AM
Passengers	22
Hours	1
Selected vehicle	25 Seater Premium AC Coach (P25AC), results page 2

JOURNEY / ACTIONS PERFORMED

1. Belagavi search → Distance 80 KM.
2. Fare Breakup P25AC → Book This Vehicle → Confirm & Submit → success.
3. Comparison search to Hogenakkal → resolved to Tamil Nadu, accepted, Distance 80 KM (no vehicle selected).

EXPECTED

- Route distance reflects ~500 km (or Local rejects/redirects per business rule).
- Date in 2028 handled per booking-window rule.
- Fare consistent with Fare Breakup.
- Inquiry submitted.

ACTUAL

- Distance 80 KM for Belagavi.
- 2028 date accepted (no window limit).
- ₹9,500 + ₹1,000 = ₹10,500; extra-km cannot be evaluated.
- Submitted.

Status rationale: Displayed distance is wrong for the route (TC-05-Issue-01). Long-distance/out-of-state acceptance is a clarification.

STEPS TO REPRODUCE

1. Home → Local → turn ON "Drop at different location".
2. Pickup: Yeshwanthpur, Bengaluru. Drop: Belagavi, Karnataka. Date 15 Nov 2028, 9:00 AM, Passengers 22, Hours 1.
3. Click Book Now! and read Distance in the trip summary.

EXPECTED

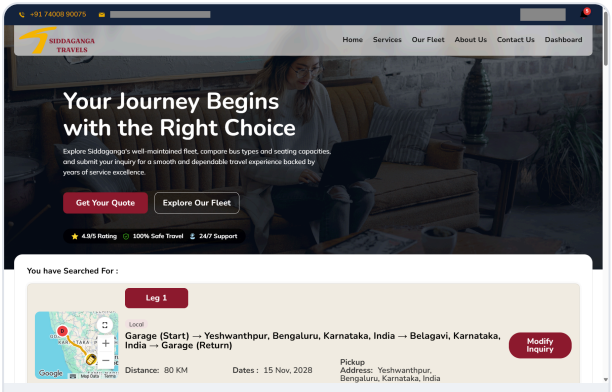

Distance reflects the calculated route (Bengaluru → Belagavi is roughly 500 km one way; Garage legs as per business rule), so that the Extra Km Charge in the Fare Breakup can be applied.

ACTUAL

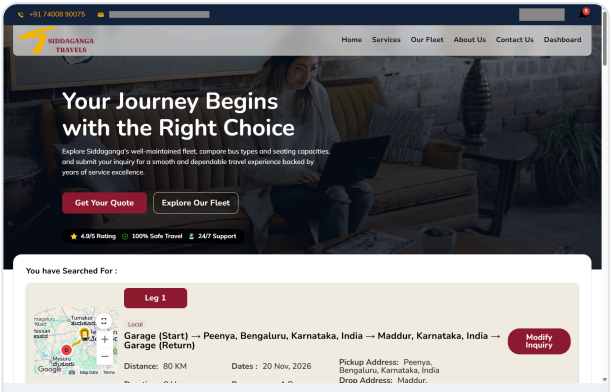

Distance: 80 KM. Identical value for Whitefield → Mangaluru (TC-06, ~350 km), Peenya → Maddur (TC-08, ~90 km) and Sarjapur Road → Hogenakkal (TC-05). Extra-km charges are therefore never computed.

IMPACT

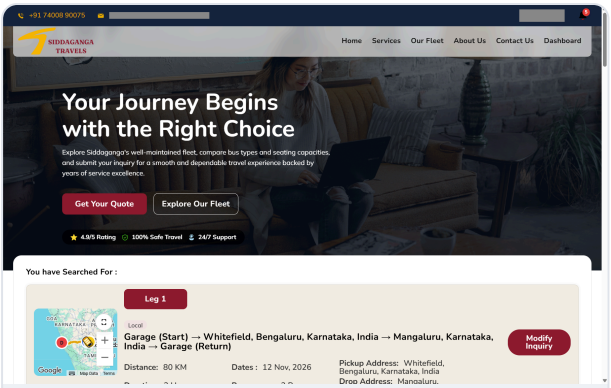

Extra-km pricing (₹25–₹70/km displayed per vehicle) can never take effect; long trips are under-quoted and the displayed distance is misleading.

TC-05 Yeshwanthpur → Belagavi: Distance 80 KM

TC-08 Peenya → Maddur: Distance 80 KM

3. Refresh on results page → home page, search lost; Back → empty form.

EXPECTED

- Blank pickup / blank drop rejected.
- Invalid passengers and hours rejected with clear messages.
- Past dates not selectable.
- Toggle changes keep data sensibly.
- Valid inquiry submitted.

ACTUAL

- V1 blank pickup → "Pickup location is required" ✓.
- V2 DD ON + blank drop → "Drop location is required" ✓.
- V3 same pickup/drop → accepted (TC-06-Issue-03).
- V4 passengers (blank/0/-3/999): NOT RECORDED in this run — automation click timeout on two attempts; no application defect claimed (exploration on 12 Nov: 0/-3 reset to 1, 999 accepted, blank → raw message).
- V5 hours: 0 / 25 accepted into the field; blank → raw message (TC-06-Issue-01); 1.5 → 1.
- V6 typed past date 2026-11-01 rejected (field stays 12 Nov) ✓.
- V7 toggles: drop cleared on DD OFF→ON; MD keeps today locked; MD OFF restores single date.
- Final E2E submitted ✓. Refresh/back loses data (TC-06-Issue-02).

Status rationale: End-to-end inquiry completed and submitted, but the passenger-validation sub-check (V4) could not be recorded due to an automation timeout. Exploratory checks are reported separately from the E2E result.

2. Boundary 9 hrs (identical otherwise): "9 HR / 80 KM" → Fare Breakup unchanged → applied ₹8,300 → submitted.
3. Note: a first baseline attempt in this run read back 24 hours instead of 8 and was discarded (TC-07-Issue-03); the re-run verified hours = 8 before searching. Both final runs are complete and submitted.

EXPECTED

- 9-hour total = 8-hour total + 1 × Extra Hour Charge (₹800) per the displayed Fare Breakup.
- Both inquiries submitted.

ACTUAL

- 8 hrs: ₹7,500 + ₹800 day bata = ₹8,300.
- 9 hrs: ₹7,500 + ₹800 day bata = ₹8,300 — no extra-hour line.
- Both submitted (save-inquiry 201).

Status rationale: Execution complete for both runs. Extra-hour charge displayed (₹800/hr) is not applied → Fail (TC-07-Issue-01). Business confirmation of the package definition is still requested.

5. Close the details → Book This Vehicle on P16UB → note Estimated Grand Total ₹8,300.
6. Repeat steps 2–5 with Number of Hours 9 (all other inputs identical).

EXPECTED

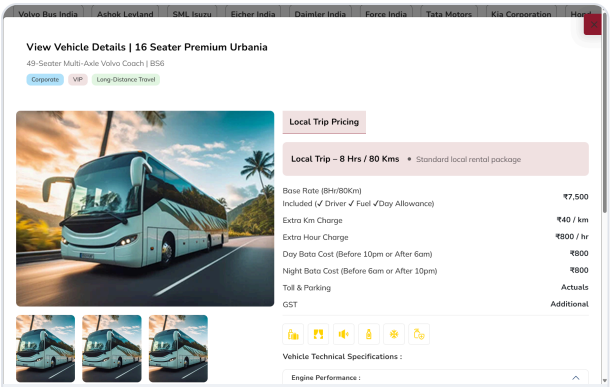

With 9 hours (1 hour above the 8-hour package) the Estimated Trip Cost includes an extra-hour line of ₹800 (as displayed in the vehicle Fare Breakup), i.e. a total higher than the 8-hour baseline.

ACTUAL

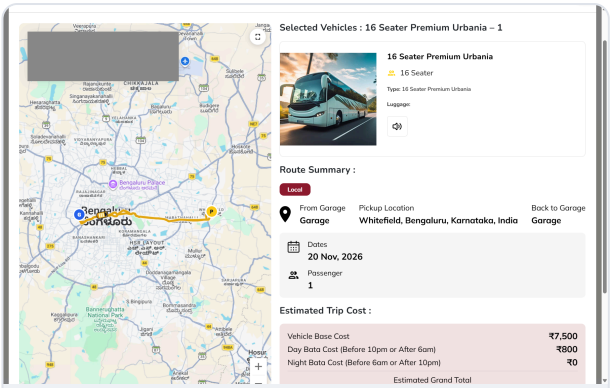

9-hour total = ₹8,300, identical to the 8-hour baseline (Base ₹7,500 + Day Bata ₹800 + Night Bata ₹0). No extra-hour line is shown. The results header does change to "Local – 9 HR / 80 KM". Same in TC-03: 12 hours for the 49 Seater Deluxe Coach (Extra Hour ₹1,200/hr) is charged only Base ₹12,500 + bata (₹14,500); 4 × ₹1,200 = ₹4,800 is not applied.

JOURNEY / ACTIONS PERFORMED

1. Search → Distance 80 KM, "8 HR / 80 KM".
2. Fare Breakup P16UB → Book This Vehicle → applied ₹8,300 → submitted (save-inquiry 201).

EXPECTED

- Displayed distance > 80 KM so the extra-km rule (₹40/km) can be evaluated.
- Inquiry submitted.

ACTUAL

- Distance shown 80 KM → boundary not reached.
- Applied ₹8,300 (same as TC-07 baseline).
- Submitted.

Status rationale: Per the approved rule: the app still shows 80 KM, so the extra-km fare check is Inconclusive; the incorrect distance is recorded separately (TC-05-Issue-01).

Fare verification (shared procedure: `User-Web/.claude/shared/fare-verification.md`)

Consolidated issue index

Ref	Type	Severity	Category	Title	Observed in
TC-07-Issue-01	Defect	High	Fare	Extra-hour charge shown in the Fare Breakup is not applied when hours exceed the 8-hour package	TC-07, TC-03
TC-05-Issue-01	Defect	High	Functional / Fare	Trip distance is always shown as 80 KM regardless of the actual route	TC-05, TC-06, TC-08

TC-04-Issue-01	Defect	High	Functional	Passengers above 49 cannot be submitted: selecting a second vehicle replaces the first instead of adding it	TC-04, TC-02 (supplementary)
TC-01-Issue-01	Defect	Medium	Content / Data	Vehicle details show the same "49-Seater Multi-Axle Volvo Coach | BS6" subtitle, tags and bus photos for every vehicle (including Sedan)	TC-01, TC-02, TC-03, TC-04, TC-05, TC-06, TC-07, TC-08
TC-01-Issue-02	Defect	Medium	UI	Vehicle Comfort Metrics display raw JSON and empty bars	TC-01, all cases with vehicle details
TC-01-Issue-03	Defect	Medium	Data	Seat capacity mismatch: "33 Seater Deluxe Coach" card shows 35 Seater	TC-01
TC-06-Issue-01	Defect	Medium	Validation	Blank Number of Hours shows a raw technical validation message	TC-06
TC-07-Issue-02	Defect	Low	Content	"Luggage:" is blank for 16 Seater Premium Urbania on the confirmation screen	TC-07, TC-08
TC-01-Issue-04	Inconsistency	Medium	Content / Terminology	Inquiry flow uses booking terminology ("Book Now!", "Book This Vehicle", "Proceed To Booking", "Confirm & Submit Booking", "Track My Booking")	TC-01, all cases

TC-01-Issue-05	Inconsistency	Medium	Fare / Content	Package label differs between card and Fare Breakup ("Local (1 HR / 80 KM) ₹4,000" vs "Base Rate (8Hr/80Km) ₹4,000")	TC-01, TC-07, TC-08
TC-01-Issue-06	Inconsistency	Low	Content	Bata time windows are worded illogically ("Day Bata (Before 10pm or After 6am)", "Night Bata (Before 6am or After 10pm)")	TC-01, all fare cases
TC-06-Issue-02	Inconsistency	Medium	UX	Refreshing the results page discards the search and returns to an empty home form	TC-06
TC-06-Issue-03	Inconsistency	Low	Validation	"Drop at different location" accepts a drop identical to the pickup	TC-06
TC-06-Issue-04	Inconsistency	Medium	UX	Multi-day Trip always includes today; today cannot be deselected	TC-06, TC-02, TC-04
TC-04-Issue-02	Inconsistency	Low	UX / CTA	Capacity popup offers only "Cancel Inquiry" although it asks the user to add buses	TC-04, TC-02 (supplementary)
TC-06-Issue-05	Inconsistency	Low	UX	Pickup time defaults to the current minute (e.g. 12:59 PM), which is not one of the 30-minute slots	TC-06, TC-01

TC-01-Issue-07	Suggestion		UX	Show pickup time, number of hours/days and distance on the confirmation screen	TC-01, all cases
TC-04-Issue-03	Suggestion		UX	Support multi-vehicle selection explicitly (quantity stepper or "Add another vehicle") with a running seat total	TC-04
TC-06-Issue-06	Suggestion		UX	Keep the drop location when "Drop at different location" is toggled OFF and ON again	TC-06
TC-01-Issue-08	Clarification		Fare	GST shown as "Additional" in the Fare Breakup but not included or itemised in the Estimated Grand Total	TC-01, all fare cases
TC-02-Issue-01	Clarification		Fare	Multi-day: meaning of "Number of Hours" (24) and night bata for 24-hour days	TC-02
TC-07-Issue-03	Clarification		Functional (needs investigation)	Hours value changed from 8 to 24 after entry in one execution attempt	TC-07
TC-05-Issue-02	Clarification		Business rule	Local accepts very long and out-of-state drops (Belagavi ~500 km; Hogenakkal resolved to Tamil Nadu)	TC-05

Improvement suggestions

- TC-01-Issue-07: Show pickup time, number of hours/days and distance on the confirmation screen
- TC-04-Issue-03: Support multi-vehicle selection explicitly (quantity stepper or "Add another vehicle") with a running seat total
- TC-06-Issue-06: Keep the drop location when "Drop at different location" is toggled OFF and ON again

Clarification points (business / developer)

- Local package definition: fixed 8 Hr / 80 Km minimum package, or one package per hour value (labels show "N HR / 80 KM")?
- Per-vehicle extra-hour and extra-km rates — are the Fare Breakup values authoritative for the estimate?
- Do Garage → pickup and drop → Garage legs count toward kilometres?
- GST: should the estimate include or itemise GST ("Additional")?
- Day Bata vs "Day Allowance included" in Base Rate — is Day Bata a separate charge?
- Multi-day: hours per day vs per trip; when do extra hours and night bata apply?
- Is today intentionally forced into every multi-day selection?
- Local limits: maximum distance / allowed states (Belagavi, Hogenakkal-TN accepted).
- Passenger maximum (999 accepted in exploration) and Hours 0/25 accepted into the field before validation.
- Hours value 8 → 24 once (possible draft restore) — developer to confirm draft-restore behaviour.

Scope, coverage & limitations

- Executed: TC-01 to TC-08 from the approved plan (Local_Test_Combinations.md), run user-web-20261112-1317-LOCAL. Earlier pre-submission runs (exploration and user-web-20261112-1235-LOCAL) are not used for status.
- Supplementary (not counted in case status): TC-02 capacity popup (13 pax on 12-seater) — done; TC-04 multi-vehicle read-only check — done; TC-05 results filters — done (Premium 7, Volvo Bus India 0, Clear Preferences → 20, Brand New 20); TC-04 Modify Inquiry and TC-01 Request Custom Quote (view only) — NOT completed (automation click timeout; no application conclusion drawn).
- Automation notes: TC-06 V4 passenger validation not recorded (click timeout, two attempts). First TC-07 baseline attempt discarded (hours read back 24); re-run verified. First TC-04 attempt stopped at the capacity popup. Superseded raw results are kept under results/<run>/superseded/.

- Submission verification: success popup + save-inquiry HTTP 201 for each submitted case. Responses are encrypted, so no inquiry reference number could be captured; Dashboard/“Track My Booking” listing was not checked.
- Vehicles used in Local: Sedan, 12 Seater Tempo Traveller, 49 Seater Deluxe Coach, 45 Seater Luxury Volvo, 9 Seater Luxury Urbania (TC-04, not submitted), 25 Seater Premium AC Coach, MPV's, 16 Seater Premium Urbania.
